HOSPITAL CLASSROOM

The hospital classroom is a space specially designed to offer recreational and educational support to children in the children's hospital, especially for those facing prolonged and recurring stays.

Leisure, cultural and artistic activities are developed that create moments of learning, fun, socialization and entertainment, with the aim of accompanying children's illness and treatment processes, improving their mood and mental and emotional health.

¿How does it work?

- It is accompanied by two teachers, a nursing assistant and cleaning and disinfection staff.
- It opens its doors from Monday to Friday from 7 to 4 pm.
- Loan toys and teaching materials for use in the rooms and daily activities in which children and caregivers participate

Classroom Objectives

- Provide pedagogical support to reduce school dropouts.
- Promote the emotional well-being of patients, providing them with an environment of joy, fun and distraction.
- Reduce children's anxiety and fear.
- Strengthen the cognitive, sensory and social dimensions of children.
- Create a pleasant and safe children's space

- Creative Word.

“The Hospital Classroom is a learning laboratory to be better human beings, it is a gift to build and be a better person” -Benefactor

¡Your donations contribute to!

Our mission is that our Aula will always be a space of well-being for the children.

In 2007 the physical plant was inaugurated, so it is necessary to continue contributing to the welfare of the classroom to provide quality to children, through:

- 01** Improving classroom infrastructure
- 02** Buying children's books
- 03** Purchase of materials
- 04** Carrying out social activities
- 05** Toy purchase
- 06** Acquisition of technological devices for the classroom.

¡Your donations contribute to!

07 Celebration of special dates

Such as:

- Childhood Cancer Day
- World Kidney Day
- Women's and men's day
- Children's Day
- Halloween
- Christmas

“In the classroom we can recharge ourselves with hope”
