

Education Support for Underprivileged Children

Summary

This project provides high-quality education sponsorship for 250 underprivileged children from poorest slum communities & studying in Govt., Private Convent schools. These deprived children are good at studies but struggling for timely education support, due to children parents are working as daily wage labours in construction sites, scavenging, tobacco making, etc. With this project children will benefit immensely from SERUDS holistic approach to education & comprehensive support services.

What is the issue, problem, or challenge?

We have been identified 250 underprivileged children in Kurnool district of Andhra Pradesh, who are studying in Govt, Private Schools & struggling for timely education support like notebooks, uniforms, clothes, shoes, pens, pencils, private convent school fee, tuition fee. Children parents are working as daily wage labours in hazardous jobs tobacco making, market yard, scavenging. A significant number of children come from backward communities. These communities face widespread discrimination.

How will this project solve this problem?

This project will allow children to be bold to study well, self reliant to achieve goals in their bright future. Our goal is to improve access & quality of education for 250 children through enrollment of deprived children in schools & regular attendance, sponsor their school fees, provide uniforms, shoes, school supplies & educational material. Additionally, project mainly concentrates on Girl Child Education and Enrollment in schools. It provides bright future for all the deprived children.

Potential Long Term Impact

The project will provide an excellent education and opportunities to these 250 underprivileged children for holistic growth and development, which will put them on the path toward breaking the pervasive cycles of poverty in their slum communities and also have bright future in their career. Especially Destitute Girl Children will be protected from Child marriages, trafficking, domestic servant maids. This project creates a chance to lead good career in their professional lives.
