Educate the Future Leaders of Sierra Leone

From nursery school through college | GlobalGiving Project 2291

The opportunity

Education can change a child's life. For many students in Sierra Leone, however, the cost of tuition, uniforms, books, and everyday school essentials can make it difficult to stay in school. Limited learning resources and support can create additional barriers to progress.

Develop Africa helps students from nursery school through college continue their education, develop their abilities, and build brighter futures. By addressing practical needs alongside learning and personal development, the project helps students move from access to opportunity.

What the project supports

Access to education: Tuition assistance, school uniforms, books, supplies, and transportation support.

Support for learning: Meals, tutoring, mentoring, and encouragement to stay engaged in school.

Skills and resources: Computer training and classroom resources that strengthen learning and prepare students for future opportunities.

Help a student keep learning

Practical support today. Greater opportunity for the future.

School essentials

Books for learning

Computer training

How your support makes a difference

Tuition assistance and school essentials help reduce barriers to attendance. Meals and transportation support make participation more practical, while tutoring and mentoring help students work through challenges. Computer training gives students opportunities to build useful digital skills.

Choose your impact

Gift	What your gift can help provide
$25	Notebooks, pens, pencils, and other essential school supplies.
$50	A school uniform, shoes, and a backpack.
$100	Tuition and school fees to help a student continue learning.
$250	Tuition assistance, books, and tutoring to support a student's progress.
$500	Broader educational support, including tuition, supplies, meals, and computer training.

Giving levels illustrate contributions toward these needs. Support varies by student, school, and program priorities; gifts are not guaranteed purchases of a fixed package.

The long-term vision

Consistent educational support helps students build knowledge, confidence, and practical skills. The project aims to help young people pursue further study, prepare for employment, and contribute to their families and communities.

Give once or become a monthly donor.
