

## DEVELOP YOUR CSR PROGRAM WITH HOPE NOW

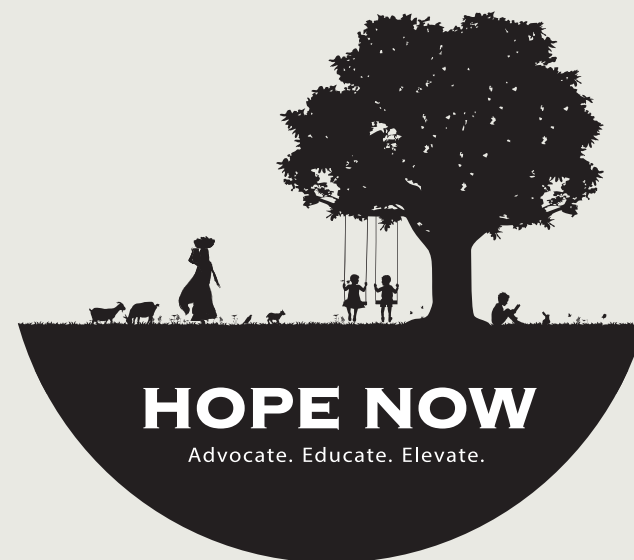

Hope Now can serve as your implementing partner for all CSR activities. Hope Now will help you meet mandated CSR requirements.

Hope Now meets government standards to serve as an implementing CSR partner:

- ▶ **80G Certification / 501c3 Tax Exempt Certification**
- ▶ **10 years established track record of implementing projects**
- ▶ **Established monitoring and reporting mechanisms**

Hope Now serves in the areas of education, health care, agriculture and job skills training for woman and children.

We can help you develop and design annual CSR reports including financial transparency highlighting your CSR activities. Hope Now can provide you with information about your impact, including logos, quotes for your website and reports that you can print as needed.

# What does it mean to you?

Building Strong Partnerships for a Better Tomorrow

## ABOUT HOPE NOW

What we are about as an organization is creating a family out of the pieces left behind when parents die of AIDS. Life is messy and sometimes it is difficult to look at the harsh reality of suffering in the world. Understanding the reality is the beginning of envisioning a solution. We have to be open to what happens in the world in order to make the change we want to see in the world.

We have worked for more than 10 years to build an environment where everyone is welcome, respected, cared for and most importantly, loved. We started with 7 kids. Hope Now is a home where 58 beautiful children have created a family out of strangers and hope out of despair.

We focus on three key areas for the greatest impact - provide a safe, loving, stable home; provide quality health care and nutrition; and an education.

**Hope Now is a registered charitable trust in India. All donations are tax exempt under 80G of the Income Tax Act. Hope Now also has nonprofit 501c3 status in the United States.**

**Over the next several years we will form partnerships with local NGOs to expand our reach in the community and create programs to meet critical needs in the area.**

We work in collaboration with communities, local government and other NGOs to develop programs and services to meet our goals. Our quality programming coupled with fiscal efficiency has earned us recognition from leaders in government, and in the corporate and nonprofit sectors. We have built a strong organizational foundation that combines ethical principals with best practices and research from the nonprofit world.

Hope Now is consistently working to establish relationships and partnerships with NGOs, business institutions and government bodies to meet our children's needs. We have implemented onsite projects to generate revenue and provide life and job training skills, which are essential to build a stable adult life.

In the summer of 2016, we moved from the country to Hyderabad to access greater educational and community- based opportunities. We are now part of the Word & Deed Campus in the Hayathnagar District - a large compound with an elementary/secondary school, trade school and junior college and a HIV Clinic. Our kids are now attending an English medium school with kids from the community.

## IN 2017 WE PLAN TO;

- **Expand our College/ Trade School Scholarship Program**
- **Build a commercial dairy business**
- **Open an Organic Farm**
- **Build and operate a residential program for women who have been trafficked**

Education does not stop at the end of primary/secondary school. College or trade school is critical to the success of our kids. In 2014, the Hope Now Scholarship Fund was created for the sole purpose of paying college tuition and living costs to ensure our children have access to higher education. As of June 2016, we have 12 students in college or trade school.

Our 55-herd dairy moved with us to Hayathnagar. We are working to combine our dairy with a small community dairy to form a commercial size dairy. This kind of creative partnership offers an important avenue for our kids to learn valuable life skills such as creating a business plan, animal husbandry and building community partnerships.

**As part of our long-term strategic planning, our new campus will be home to others who are in desperate need of safe harbor. Hope Now will coordinate to construct a residential, rehabilitation facility working with women who have been rescued from human trafficking. The plan to house 50 women and provide a safe environment to learn job skills, access to medical and mental health professionals as they rebuild their lives is in motion.**

Our new home has the remnants of a former Organic Farm including 3 greenhouses and tillable land. We plan to rehabilitate the facilities and restart the farm in the next year. This is another example of how we continue to create opportunities for our kids to learn job skills. We will grow food for ourselves and sell the balance.

We seek partners from the corporate world willing to invest in India's future. At the end of the day this is not about numbers, data or issues, this is about people and what kind of world we want to live in. A world where children are cherished and loved and given the opportunity to succeed, or a world where possibility is determined by geography and happenstance?

**Partner with Hope Now and be the change.**
