

Foundation for Community Development Association Cameroon

Background

Foundation For Community Development Association (FCDA) is a registered non profitable association created in 2017, with headquarters in Limbe, P.O Box 406, Limbe, Cameroon, with the mission to provide a unified agricultural and technology impact driven solutions to rural and urban Communities of the Country. FCDA is establishing a Commodity Exchange platform where buyers and sellers can trade under one floor with addons such as updates on information regarding markets, prices, trends, seeds, fertilizers and the necessity to engage in large scale commercial agriculture and for poverty alleviation. Our Electronic Board Reading s, SMS, Emails and Newsletters are our main tools to reach out to these underprivileged farmers to avoid exploitation from Middlemen. FCDA also runs the following programs to compliment her agriculture and technology initiatives such as After School Programs For Kids, Adult Literacy, Microcredits and Self Help Groups (SHG) creation, Micro Library, Project Developments, Health and Sports.

Vision

To be the leading Community Foundation in Cameroon by 2025 delivering innovative, creative, explorative and interconnectivity services (real time market prices, digital learning, digital financing and inclusion, micro enterprising and micro financing, Health, project development and market research to the underprivileged especially farmers (women, girls and men) in the rural areas with the aim of poverty alleviation, job creation and wealth creation. A unique world of data access for sustainable development across the country.

Mission

FCDA has the following missions

1. To educate individual farmers and Self Help Groups (SHG) and provide them with the most accurate data on crop prices, market demands and supplies across the globe through mobile services and at her micro data centers, thus improving wealth creation and employment

2. Bringing out the potentials and skills from individuals and groups for equality and sustainable development through training, mentoring, and provision of seed capitals to farmers through linking them to financial institutions.

3. Creation of a network of partners amongst startups, farmers, donors, angel investors and Diaspora through 24hr online services platforms available for communication.

Values

1. Professionalism
2. Transparency, integrity and Honesty
3. Community and Sustainable development
4. Team work and unity
5. Equality/Equity
6. Commitment, engagement and collaboration
7. Customer care and support
8. Innovate, Create, Explore and interconnect

10. Leadership

Program Overview

1). Agriculture

FCDA works with individuals, Self Help Groups (SHG) and secure an efficient and effective relationship with Private, public and international organizations in a bid to reduce poverty and create wealth. FCDA provides land, seeds, and working tools to members for them to engage in large scale commercial organic farming and rearing of livestock. FCDA has partnered with agro processing plants to transform these produces.

2). Micro Library

We provide a reservoir of thousands of videos, audios, E-books, magazines and other publications for free where kids, students, professors, business men and government agencies can easily access. In addition, we provide clean printing and archiving services for security and confidentiality. You can access amongst others the following books and video lessons on Social Sciences, ICT and Science. We have 24h/24h wifi connection.

3). Project Management and Start up

FCDA provides members with 24h/24h assistance to ensure the implementation of their dream projects. Business plans, sources of funds, monitoring and evaluation as well as networking services. We award prizes to best projects and give the possibility for recognition, exposure and earn rewards. We also assist in creating websites.

4). Micro enterprising and Microfinancing

We provide seed funds to individuals and Self Help Groups (SHG) to engage in initiatives that will assist in the generation of wealth. We provide assistance to family businesses and those in the diaspora willing to take up businesses in the country. We also link individuals and Self Help Groups to microfinances, banks and other credit worthy institutions.

As part of her digital financial inclusion program, smart phones are made available almost for free to members.

5). Sports

We organize sporting activities for all groups though with focus on kids ranging from 7-13 years. This is to ensure kids develop talents and also an opportunity to show case their skills. Meanwhile, such programs shall be accompanied by creation of awareness, business exchange possibilities and a sense of community lifestyle. FCDA organizes a football match per year for kids and also follow up with other veteran clubs.

We deliver health tips, talks, health history archiving, awareness creation, sensitization campaigns and distribution of health tools and materials through these international and local hospitals to members. We are seeking partnerships with many of such institutions.

8). Commodity Exchange

FCDA uses advanced information technology tools such SMS, Emails, Online trading platform, electronic boards to provide real information on prices, markets, seeds, fertilizers, trends and warehousing to all members across local and international markets of commodities.

We also assist in purchasing produces from members and guarantee them ready markets for their produces. Our commodity exchange unit provides a platform where buyers and sellers are in direct contact and they can also engage in future contracts as well as other trading tools with payments and delivery within 24 hours. We conduct technical and fundamental analysis for high level

9). Market Research

We care much about Big Data and ICT. We conduct research for members and we have a large data bank of research conducted across multiple disciplines and geographical locations. We also assist other local and international agencies to provide transparent and trusted reports on research findings to be used for policy development, product designing and marketing programs across institutions such as banking, insurance, microfinance and energy. We are driving towards embracing internet of everything and the cloud fundamentals. We use various statistical and mathematical models to analyze our reports.

10). Career Development and Job Placement

We provide volunteering opportunities in diverse fields of social sciences, Science and ICT. We place volunteers on hands on field experience field work and practical examples with the possibility of direct employment after volunteering.

11). NGO Creation

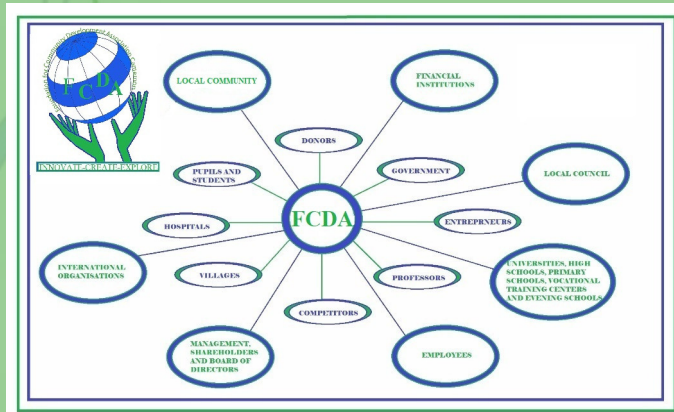

We also assist Self Help Groups to compile documents to get full status of an association and Non-Governmental Organization. We also provide assistance for the creation of a company through our partnership with some law firms.

12). Adult Literacy Programs

We provide our members the possibility to advance with information and communication skills, mathematics, languages, marketing and businesses with the use of computers, note books and other electronic gadgets. FCDA awards prizes to best Trainee. This shall go a long way to enhance not only their writing and reading abilities but also to conduct businesses in the digital world. They shall be able to outline their success stories. Each member will need to create his or her email addresses as well as to register with other social media sites so as to network with others in the business world.
