About Us

Climate Action Now is a not-for-profit project setup in the UK by IAHV to combat effects of Climate Change

- » Started in: September 2016
- » www.Climate-Action-Now.org
- » Project Leader: Liza Toth

Our Parent Organisations

IAHV

- » The International Association for Human Values was created in Geneva in 1997 by His Holiness [Sri Sri Ravi Shankar](#) as a global platform for humanitarian initiatives that solve problems by uplifting human values.
- » www.iahv.org.uk

Saving Our Planet

- » Saving Our Planet is a non-profit association in Paris
- » NOCO2, is an initiative of Saving Our Planet, a public interest non-profit NGO, registered in France as an Association Loi 1901, Registration Number: W751235109
- » www.savingourplanet.net
- » www.NoCO2.org

Saving  ur Planet

NOCO2

Focus Areas

IAHV-CAN focuses on 3 key areas to maximise its impact

- » **Restore:** Increasing CO₂ capture through replantation
- » **Reduce:** Facilitating reduction of CO₂ emissions by increasing public awareness
- » **Reach-out:** Educate the next generation to foster responsible behaviours

Project Structure

Saving  ur Planet

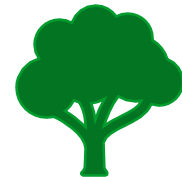

NO CO₂

Restore

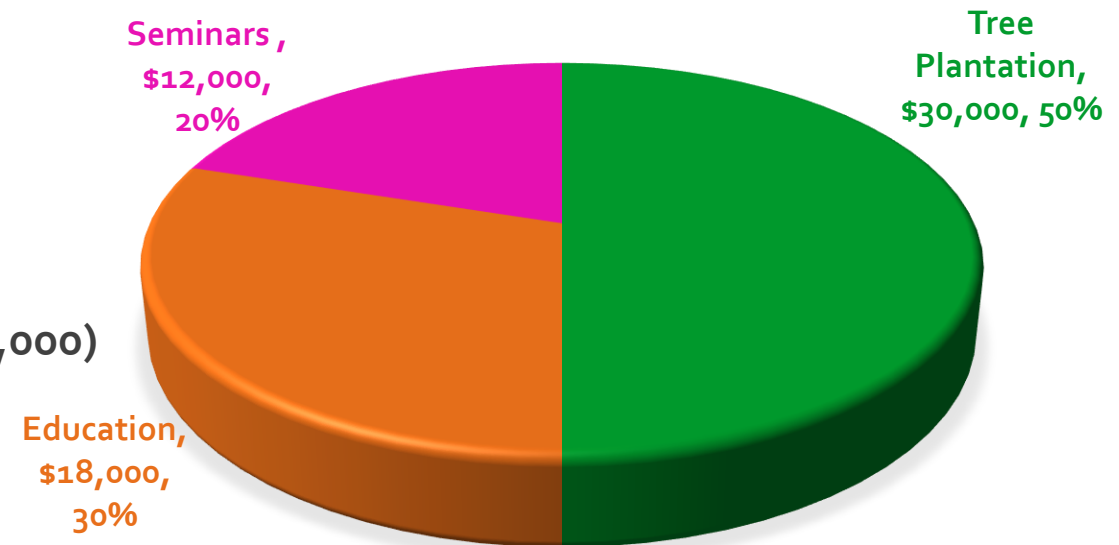

Reach-out

Climate Action Now

Project Finance

- » Fund Raising target : USD 99,000
- » Project Admin cost (Global Giving) : 15%
- » Project Admin cost (IAHV) : 10%
- » Project Admin cost (SOP) : 10%
- » Finance handling charges : 4%
- » Net Amount available for the cause : 60% (~ USD 60,000)

Cost Break Down

Funds raised are split across three work streams: Tree Plantation, Train the Teacher, and Educating children

Tree Plantation : USD 30,000

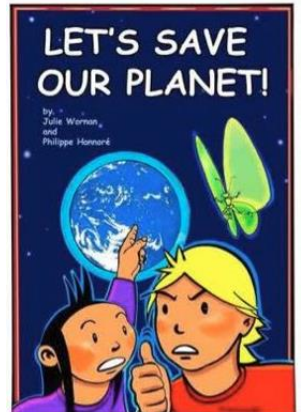

- » To date, CAN has planted 30,000 trees via the project organisation
- » Of the total finance raised, 50% will be spent on tree plantation
- » USD 30,000 will enable CAN to plant 300,000 trees *(This equates to the lifetime CO₂ footprint over the lifetime of approx. 170 UK resident)*

Seminars: USD 12,000

- » USD 12,000 would enable climate change experts to deliver training to 1,000 teachers across Europe
- » The teachers will act as change agents by further spreading the knowledge to facilitate reduction in carbon footprint

Education: USD 18,000

- » USD 18,000 would enable CAN to distribute 'Let's Save Our Planet' to 1,000 children
- » 'Let's Save Our Planet' is an illustrated climate change reader for kids authored by Julie Wornan, one of the founding members of 'Saving our Planet'
- » This facilitates positive change in consumption behaviours of children securing an responsible and conscious future generation

Thank You for partnering with us on this journey towards a better tomorrow
