

# CHIVA SOUTH AFRICA

MENTORING. PARTNERING. SAVING LIVES.

## OUR MISSION

To equip healthcare professionals with the skills and knowledge they need to provide high quality, long term prevention, treatment and care services for children, adolescents and youth living with HIV.

## OUR GOALS

- To build the skills and capacity of healthcare professionals
- To strengthen health systems by partnering with government and other agencies
- To use lessons learned to contribute to local, national, and global policies and resources

## OUR APPROACH

We deliver targeted on-site mentoring and support that builds healthworker capacity and strengthens health systems. We enable local teams to build the clinical and managerial competencies required to improve and sustain the delivery of HIV services to children and young people. In doing so we create models which can be replicated across facilities, districts, provinces and countries.

CHIVA South Africa is currently working in selected health facilities in KwaZulu-Natal, providing mentorship, teaching and systems support to healthcare workers improving the outcomes of children, adolescents and young people.

## HELP US TO MAKE THE DIFFERENCE

### SHARE YOUR EXPERTISE

We know that business, finance and fundraising skills are a scarce resource in South Africa. Could you volunteer your time and expertise on our dynamic Board of Trustees?

### CONNECT US TO YOUR NETWORKS

We are always looking to make new connections and expand awareness of the work we do. Please connect us in with those you know to help us grow.

### DONATE TO OUR WORK

Our work would not be possible without the support of generous people like you. Every Rand we receive help us to improve the quality of health care for children, adolescents and young people living with HIV.
