# COURSE OUTLINE

## Month 1 – Learn How To Learn

To soar to the next level, you need to know how to learn. By empowering you to learn, you will take control of your own trajectory towards success. Nothing will be able to stop you.

**The key skills covered in this area:**

- ✓ **Critical thinking**
- ✓ **Self-discovery**
- ✓ **Unleashing your creativity**
- ✓ **Logic, reason and rationality**
- ✓ **Grit – working hard but smart** (perseverance and passion for long-term goals)
- ✓ **Fueling your curiosity**

## Month 2 – Get Technical

You may have the intelligence, but you need technical skills to be able to employ your intelligence. Learn how to unleash your brain.

**The key skills covered in this area:**

- ✓ **Data analysis** (through Microsoft Excel)
- ✓ **Cutting-edge communication and presentation skills** (through Microsoft PowerPoint)
- ✓ **Digital fluency** (optimizing social media, next-level web navigation, e-mail best practices)
- ✓ **Desktop research**
- ✓ **English** (TOEFL level – boost your English writing and reading skills)
- ✓ **Journaling and Writing**

## Month 3 – Get Professional

If you cannot apply yourself professionally, what is the point of having any skills? Synthesize what you've learnt.

**The key skills covered in this area:**

- ✓ **Personal online brand** (LinkedIn, personal website, twitter)
- ✓ **Professional etiquette** (dressing, hygiene, how to handle yourself in meetings)
- ✓ **Negotiation**
- ✓ **Changemaking** (all round operational excellence)
