To Whom it May Concern:

Brother's Brother Foundation is pleased to be partnering with Puerto Rico Rises in our joint efforts to provide relief to the people of the Bahamas. Sara Lopez and her team were invaluable partners for us in our efforts to distribute aid across Puerto Rico in the wake of Hurricane Maria in 2017. Puerto Rico Rises' extensive network and unique distribution model were integral in getting supplies to hard to reach communities that were being overlooked by larger aid efforts.

Puerto Rico Rises takes the utmost care with every item they distribute and with every individual they encounter. Their attention to detail and thoroughness far surpass many of our more established partners. Their enthusiasm and tenacity to ensure that help reaches the furthest flung areas and overlooked individuals is inspirational.

In Brother's Brother's sixty plus years of experience in International Aid, Sara and her team are shining examples of the best kinds of partners. Our work in International Health, Education and Disaster Response have brought us into contact with many kinds of organizations. We can say unequivocally that when the opportunity to partner with Puerto Rico Rises once again was presented, we jumped at the chance.

Brother's Brother Foundation looks forward to working with Puerto Rico Rises and others to provide the immediate assistance needed, and to working with Bahamian organizations and facilities as you rebuild your communities for a brighter tomorrow.

Sincerely,

Ozzy Samad
President, Brother's Brother Foundation
