600 children

1 677
children

RC «KASIETTI ZHOL» ASTANA

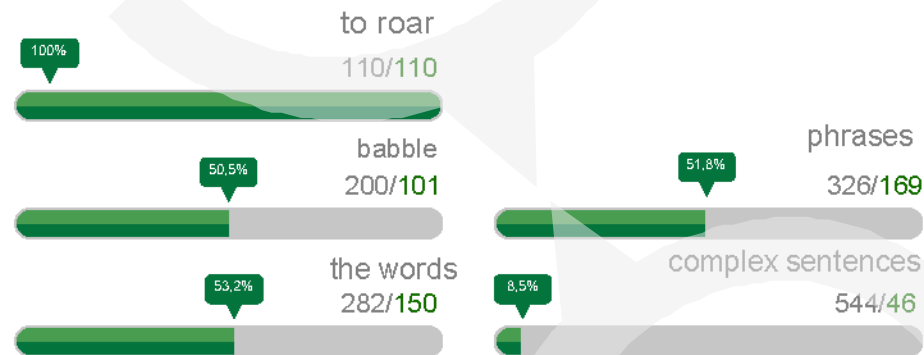

MOTOR SKILLS

- 6 months. *waiting for rehab for Astana residents*
- 8 months. *waiting for rehab for regional children*
- 1-2 months. *waiting for primary rehabilitation for Astana residents*
- 1 year 2 months. *waiting for primary rehabilitation for regional children*

The center received 600 children. Of these, from other regions 120

VOICE SKILLS

PROBLEM 1:

The growth of the priority of regional children (currently standing in queues of 138 children) and the increase in waiting time in the queue for rehabilitation

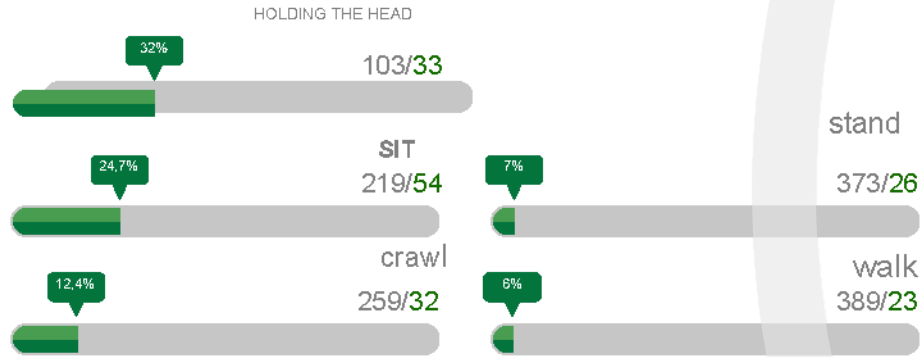

PROBLEM 2: Rising cost of hospital services.

Accommodation of a child and accompanying person in a double room rises from 5900 tenge in 2018 to 10900 tenge per day in 2019; in a single room from 7,200 tenge in 2018 to 13,500 tenge in 2019

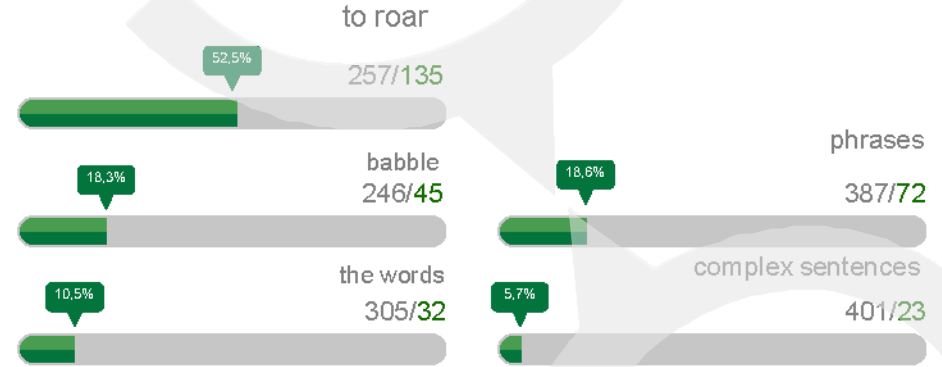

RC "KZHOL SHYMKENT

MOTOR SKILLS

The center received 600 children. 120 out of them are from other regions

VOICE SKILLS

6 months. waiting for rehab for Shymkent residents

7 months. waiting for rehab for regional children

2 months. waiting for primary rehabilitation for Shymkent residents

9 months. waiting for primary rehabilitation for regional children

PROBLEM 1: lack of premises.

To solve the problem, it is necessary to involve the premises of the basement floor that needs repairing work. 15 680 069 tg were collected (\$ 4 2067)

PROBLEM 2: Absence of highly qualified injectors in Shymkent for the introduction of dysport.

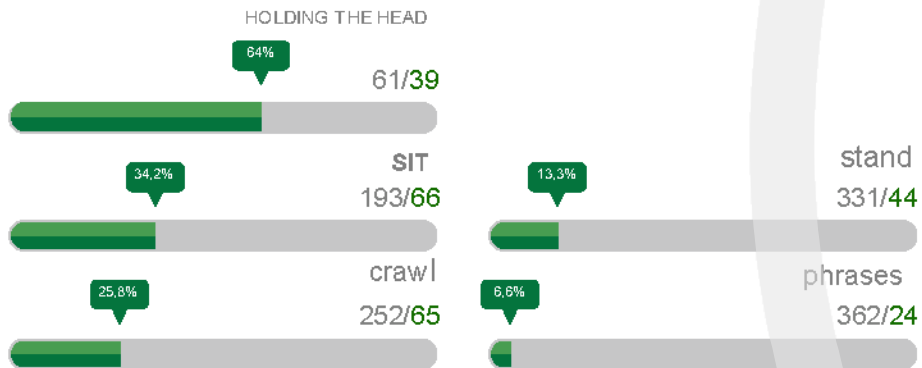

Solving the problem of training a specialist, introducing him to the staff and purchase of relevant equipment for a total amount of 7 million tenge

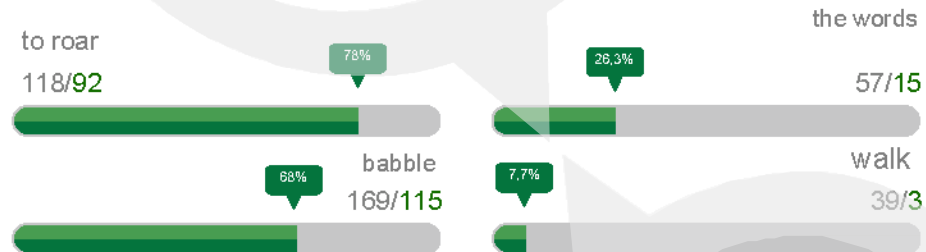

EARLY INTERVENTION CENTER "BALAPAN" ASTANA

In total, 427 children were rehabilitated. 14 out of them are from the regions

MOTOR SKILLS

VOICE SKILLS

3 months. waiting for rehab for kids

1 months waiting for primary rehabilitation for kids

PROBLEM 1: Frequent staff changing.

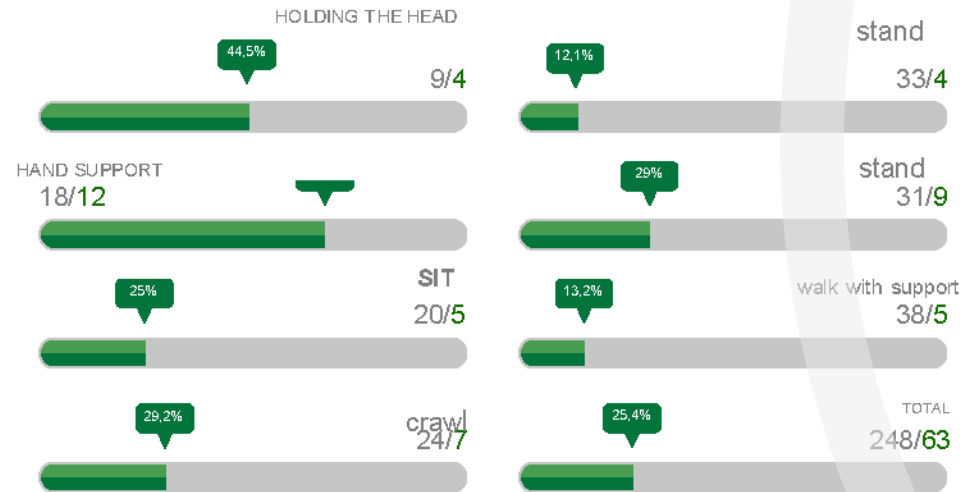

In 2018, 13 employment contracts were terminated (8 of them were concluded with employees at the opening of the Center). In 2018, completely changed composition instructors exercise therapy

PROBLEM 2: The need for employee training, as the staff updated.

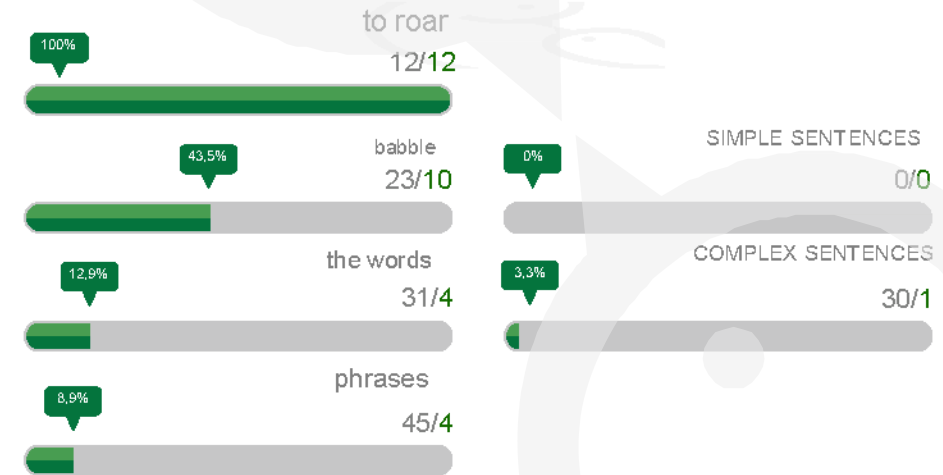

EXIT REHABILITATION OF CHILDREN from orphanage

MOTOR SKILLS

VOICE SKILLS

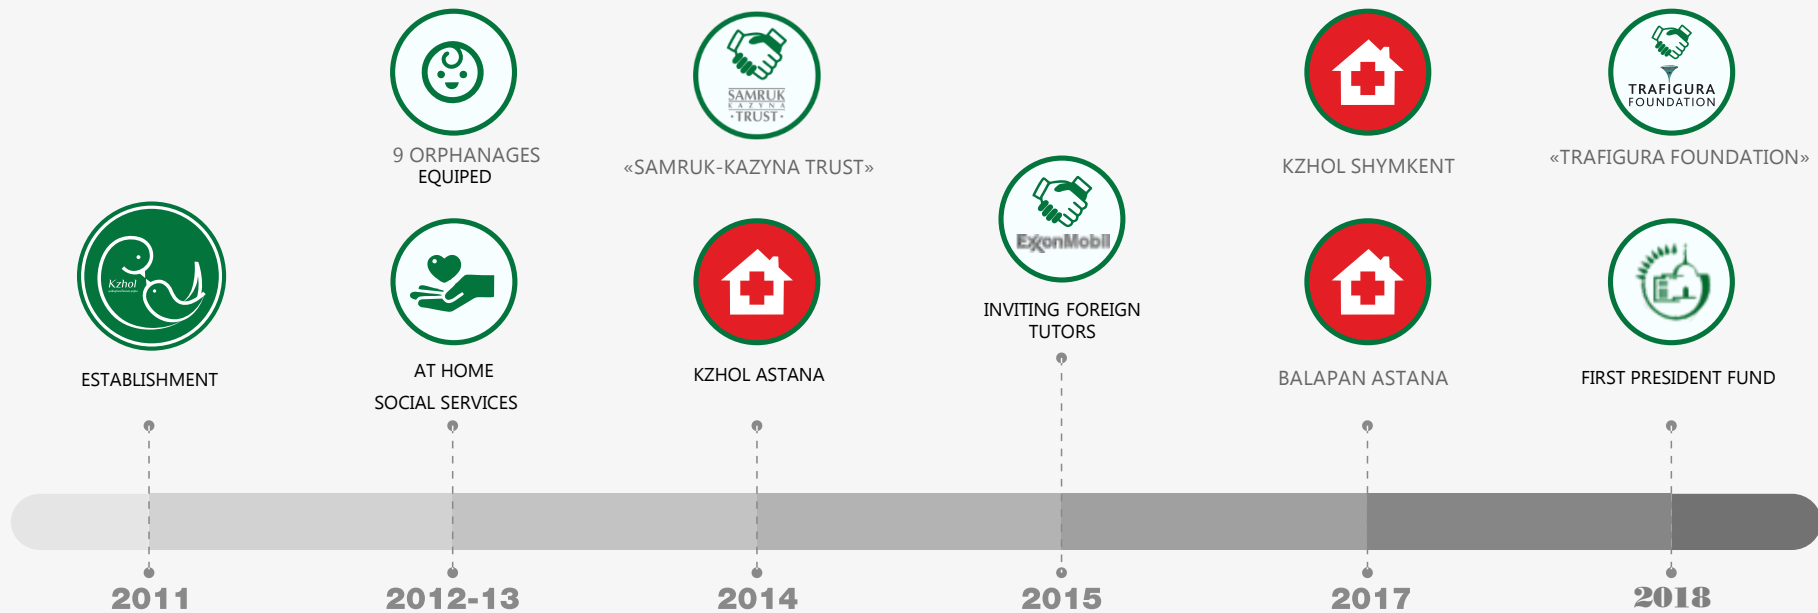

*Rehabilitation of children was funded by the Trafigura Foundation. 50 children have been rehabilitated
10 out of 50 children were adopted or returned to biological families*
