Celebrating the Voices of Siem Reap Artists

What is Our Story?

Event History and Overview

Our Story is an event designed to support the funding of creative education and the arts. It was started by PEPY Empowering Youth in 2019 to support the continuation of their soft skills classes. Since then, the event has become one of the few opportunities for artists to express themselves without having to cater to commercial tourism. *Our Story* celebrates our experiences, our hopes, and our voices.

We hope you enjoy tonight's event and that you help us continue growing and sharing *Our Story* for years to come.
