

MOTHER CHARITABLE FOUNDATION

Mother Charitable Foundation is a non-profit, non-government, organization; established in 2013 with the purview of serving the needy without any discrimination in regard to ethnicity, cast, religion or any other social stratification. The vocation is dedicated to serving children, but also extends its service to adults in need of clemency, humanity and a helping hand.

The projects' inception was in 2011 and since 2013 all ventures have been carried out through the Mother Charitable Foundation, which is managed by a team of committed and passionate individuals.

Our services encompass rural areas on a national scale, so as to reach those most in need and least likely to be helped. Children and adults with special needs, the elderly, cancer patients, AIDS victims and those who have been socially ostracized are among our key beneficiaries. The service we provide is tailored to meet the needs of the respective individual, with the hope that we can uplift their living standards through the provision of education, health care, security and other essential human needs.

MY FAITH: MY SERVICE YOUR FAITH: YOUR SERVICE

God has granted us everything we need to sustain us. Our faith and religion, is the foundation for our service. Dedicating our time to serve the urgent needs of others requires courage and strength, which is granted through faith. It comes to us from our God. It is our way and it is our service.

We oversee many things when we serve. It is the decision of the God. He will decide what I should do and should not. It is up to Him to decide what or whom I should serve. I haven't collected anything, yet I have gained everything.

Have faith and then you can serve. Join us to share love. Our service is for the cornered & rejected. We cannot be as dedicated as Mother Theresa, but can have as much faith. Our service is for the rejected. Come let's start our journey in search of them.

OUR FUTURE PROJECTS

Our new project aims to build a home for the poor and needy in Sri Lanka, thereby sheltering those who have lost their place in life and are neglected, discriminated and rejected by society. We hope to build a home where they can live with the dignity they deserve and without any discrimination due to their condition or other social pressures.

WE WELCOME YOUR GENEROSITY

We appreciate your generosity and your donations go further than anyone might imagine. You can donate anything/any amount at your convenience and we accept financial and material donations.

1. Love

“MOTHER Charitable Foundation” believe in love and our projects are based on love. An action filled with love changes everything, sadness to happiness, fear to confidence, anger to strength, discrimination to humanity. We serve the needy community with love. We give them the love which they aren't receiving in their communities.

3. Protecting

We strive to protect and enhance the physical, emotional, psychological wellbeing of everyone; especially the disadvantaged communities in Sri Lanka. We protect their rights and provide them with a secure environment, while focusing on educating the community at large to create a better society.

2. Care

In a world where abandonment is common, we open our hearts and hands because we believe caring and being cared for is an essential component for a happy, healthy, well-adjusted life. We care for those in the community who do not receive it and thus are most in need of it. We care for their physical, psychological and emotional needs without discrimination or favoritism.

4. Feeding

Satisfying the physical needs and the psychological needs of individuals, is crucial to a fruitful life. We endeavor to provide them with strength and enhanced capabilities by addressing the physical needs and also by fulfilling their emotional and psychological needs.

5. Education

MOTHER Charitable Foundation believes everyone has the right to education. One of our services is to educate the community so they might see the world from a positive perspective through learning. Enabling equal access to education is one of our primary concerns.
