

THE WILD ANIMAL Sanctuary

Help Us Save Lives Today!

Dear ,

The Wild Animal Sanctuary has been rescuing Lions, Tigers, Bears, Wolves and many other animals from illegal and abusive situations for more than four decades.

With the help of thousands of dedicated supporter like you, we have been able to rescue and rehabilitate more than a thousand abused animals.

Our mission to help captive wildlife has led to a profound number of animals being able to shed their abusive past and move forward into a new and wonderful life.

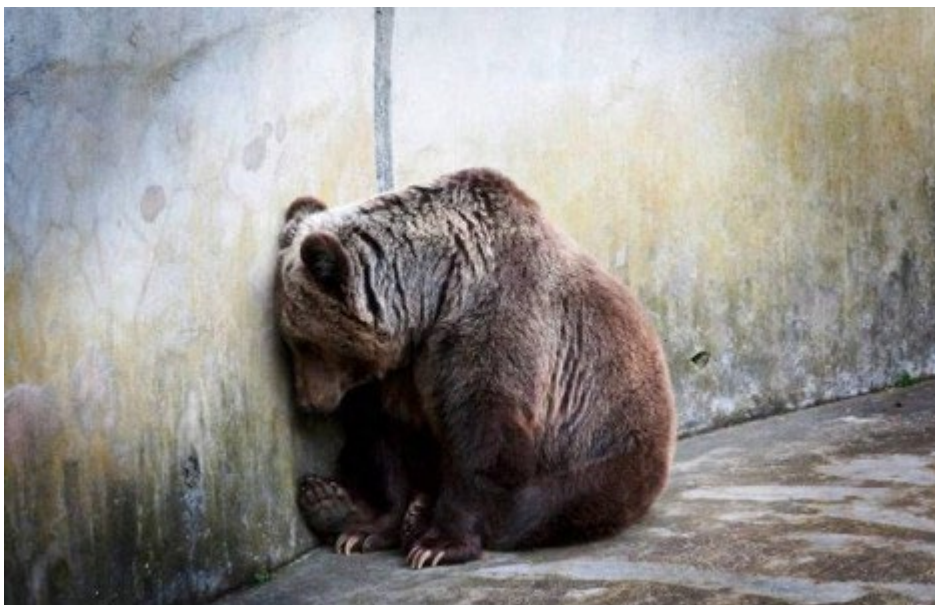

Every rescued animal is finally able to appreciate life and relish each day as they eat, play and roam freely within large natural habitats.

Thankfully, we have also been able to make remarkable progress toward changing laws and public perception regarding captive wildlife.

Yet, by no means have we reached the end of the Captive Wildlife Crisis.

Today, there are still thousands of captive-born Lions, Tigers, Bears and other majestic creatures languishing in small barren cages – so we must continue to work harder than ever!

Please help us make a true difference for these animals and countless others that continue to sit painfully idle, as they wait and pray for the day when someone will come to save them.

THE WILD ANIMAL Sanctuary

Yet, working together we can save a desperate life like this, and then free their soul immersing them a proper environment and providing them with the expert care they deserve!

RESCUE BIO: *Grizzly Bear “Miss Montana” lived in a concrete cage for nearly twenty five years before her rescue – but now receives loving care - and is able to roam freely with other rescued bears within a 103-acre forested habitat at the Wild Animal Refuge.*

Ultimately these animals can be reborn and will absolutely thrive in natural settings - like those found at the Wild Animal Refuge - so let's work together for their benefit.

It is possible to change lives... and it is possible for us to help those who cannot help themselves... so please make the choice today to give whatever you can so that we can continue to make miracles happen!
