THE HONEY BEES LEAGUE

Hi! I'm Mara!

We're 10 Rural Youths in Montes de Maria, Colombia

Mara and her friends have been struck by two archenemies - violence- and -poverty.- So with the help of the #Bees and YOU they came up with a plan to defeat these archenemies!

THE HONEY BEES LEAGUE

They will build the #Bees' homes with your support, taking care of them. The Beehives will provide Mara & #TheHoneyBeesLeague the means for producing & selling honey, earning two minimum wage salaries each defeating these two archenemies!

OUR CHALLENGE

Mara and her friends in Montes de Maria have been vulnerable due to armed conflict in Colombia. Immersed in poverty and with few or no possibilities of generating incomes, the probabilities of youth joining illegal groups to survive in these areas are high.

On the other hand, the bees are disappearing at an alarming rate, putting at risk our food security as 70% of our daily food is pollinated by them.

Through a social business of sustainable honey production, two minimum wage salaries will be generated for Mara and her friends. This will mean access to better food, education and health, giving Mara and her friends the chance of overcoming poverty and violence. They will in turn commit to preserve and maintain the bees, crucial for our survival in the planet.

THE HONEY BEES LEAGUE

The bees in good conditions grow rapidly in population, multiplying into more beehives. Profits are then reinvested so more families can join.

Mara & friends are an inspiration & role model for the reassuring of peace in post-conflict areas to other youths in Colombia.
