IN THE FIGHT AGAINST PERIOD POVERTY  
KENYA, AFRICA

The facts... **65%** of girls and women in Kenya are unable to afford period products.

The organizations listed below are just a few of the groups who will benefit from your generous donations.

- \*The Great Genius School: Bamburi, Kenya
- \*Kibera Baptist Church: Kibera, Kenya
- \*Open Hands Children's Home: Kitengela, Kenya

Great Genius School: Bamburi, Mombasa Kenya

**THE PROBLEM:** Throughout Kenya, millions of young girls and women lack access to essential feminine hygiene products, such as sanitary pads and tampons. Females suffering from period poverty resort to using leaves from trees, the insides of mattresses, socks or even reusing dirty sanitary pads.

**Lack of access to proper sanitary products forces females to miss school & work. It lowers their self-esteem. They remain homebound for at least one week out of each month-reinforcing the cycle of poverty. Due to the extreme temperatures in Kenya, females suffer more painful cycles, thereby making access to feminine hygiene products that much more important.**

**THE SOLUTION:** As part of our Basic Needs, Promise Hill Project is hosting a Feminine Hygiene Products Drive through Global Giving in order to help young girls and women throughout Kenya **to retain their dignity, to put them back in school, and to send them back to work** by providing access to clean, safe feminine hygiene products.

PERIOD PRODUCTS

## WE ARE COLLECTING:

We are seeking monetary donations to purchase and distribute panty liners and pads in Kenya. Not only does this send girls back to school and women back to work, but it fuels the economy in Kenya- a developing country very much in need.

Tax deductible donations can be made for a special fundraiser on the Global Giving website until March 25, 2020 at:
