COVID-19 Virus, Help South Korea!

Summary

COVID-19 virus is spreading all over the world. The total number of confirmed Koreans are 7,382(2020,03.09). Of the total, 6,462 confirmed Koreans(87.5%) were reported in Daegu and North Gyeong-sang Province.

Everyday, the number of confirmed people are increasing rapidly. All the buildings where the confirmed people stayed are closed. Korea is dying slowly. Help, Korea!

Challenge

Vulnerable social group is exposed to huge risk. About 5,200 children at 199 local children's centers having a hard time. Public institutions supply only 3 disposable masks and 1 hand sanitizer. Each children's center provides 1 meal coupon per child. However, 1 meal coupon is not enough. Children who are in a difficult situation to get masks and groceries can't eat properly. 다.

Solution

A-PAD Korea is providing meals for children at the Daegu province Children's centers. Almost restaurants in Daegu are closed because of COVID-19 virus. Therefore, we're going to join small self-ownership restaurants. We are planning to contribute to community economic activities by ordering meals for children to local restaurants.

Long-term effect

We need to prepare for a long fight with COVID-19 virus. In the future, even worse disaster could happen than COVID-19 virus. Korea should remember the lessons learned from this disaster. We can overcome a disaster together.
