Dear Donor,

The Makutano ya Wajasiriamali (Entrepreneurs' Junction) nonprofit respectfully requests your donation so that we are able to raise \$7800 for our Empower 200 university entrepreneurs' project in Tanzania.

The purpose of this project to empower university and college learners who are struck by COVID-19 following closure of colleges and university campuses in response to COVID-19. Majority of these students in Tanzania are starving as they do not have regular income to spend for their needs since even governments do not disburse loans allocated for their learning and living expenses while in campuses. As a result most students depend on little pocket money support their families which are also affected by COVID-19.

We therefore plan to train and empower these helpless students through training and empowering them with entrepreneurship skills to be able to run small scale home-based entrepreneurship ventures such as home gardening, chicken rearing and local fruit canning. We already have hundreds of students registered in our organisation needing such assistance.

Your donation will be used to cover entrepreneurship training (both online and well planned physical training), purchase projects inputs to be done by the beneficiaries such as vegetable seeds, chickens and their rearing equipments as well as local juice making utensils to 200 beneficiaries into 20 groups. We are afraid that if we are unable to raise this amount, majority of university learners who are struck at home will continue to get frustrated by lacking any viable economic activity to do to sustain their life and that of their family members.

Thank you for your consideration of our request. I am available for follow up with you any time to answer any questions you might have, as well as to learn whether we might meet with you to discuss the merits of our proposal. Meanwhile, should you have any questions, please feel free to contact Simeon Mihinga, our Director, at (255) 766461068 or mihingasime@gmail.com.

Sincerely,

.....
Simeon Mihinga
