

Donate Today

Dear Reader,

This June I am grateful for you: **our number one fan**. This year alone we have been able to take Reinvented Magazine from an idea to a reality all because of your support.

Reinvented Magazine celebrated our first Birthday on May 20th, 2020. In September of 2019, we printed our very first issue, officially becoming the nation's first print magazine written for women in STEM, by women in STEM. Our team has had the opportunity to travel all over the country presenting our magazine at conferences, where we have met so many inspiring women that remind us why we are fighting to normalize the idea of women being in STEM fields. We have interviewed some awesome ladies too, from Megan Smith (former CTO of the United States), to Merritt Moore (the quantum ballerina), and Limor Fried (LadyAda, Founder of Adafruit), and have been honored to be the magazine that shares their story.

We wanted to show you the impact your support has made not just for Reinvented, but across the globe. So let's take a look at our first year in review.

Reinvented Inc. is a 501(c)(3) nonprofit organization that breaks down barriers and tells the untold stories of brilliant and inspiring women in STEM.

Reinvented Magazine started as a simple thought and has since blossomed into something truly incredible. We are providing girls with role models that they can look up to and remind them that girls belong in STEM. We empower the next generation so that one day, I no longer look around the room and am the only girl present. We are giving women a voice and outlet to share their stories and help inspire others to continue pursuing their dreams.

Now with almost **70 volunteers** ranging from **high schoolers to professionals**, our team is making waves. Through our **One-for-One Program** we are able to donate one magazine to girls in low income and underserved areas for every one magazine that's purchased. And with Issue One alone, we were able to donate over 1000 magazines to girls in need. We are planning to expand this program with Issue Four, and have donated over 3500 magazines in a single year.

We want to make sure that every girl has the opportunity to be introduced to STEM, so we are calling on you to help us achieve that. There are many ways to give back, and we hope that you'll consider donating to Reinvented Magazine to help us reach even further. No donation is too small, and every penny goes right back into helping empower the next generation of female scientists, technologists, engineers, and mathematicians.

How to Donate

Use the enclosed card and envelope, or mail your gift to:

Reinvented Inc.
P.O. Box 236155
Cocoa, FL 32923

Simply go to our website and click on the donate button:

www.reinventedmagazine.com

Every penny counts

Consider making a meaningful gift to help us fight the "norm" and remind girls that STEM isn't a boy's club. You can make our gift online via our website or through the mail. And don't forget that as a 501(c)(3) we are eligible for most company gift match programs! Thank you for your generosity, and I wish you all the best this holiday season.

To Infinity & Beyond,

Caeley Looney, Founder & Editor in Chief
