Status of National Food Bank

From 2014 to 2019, "Oasis Food Bank" recovered the surplus food from more than 200 caring donors across the country and transported the surplus food to 250 non-profit organizations nationwide such as Beijing, Shanghai, Sichuan, Hunan, Xinjiang, Jiangxi, Shandong, Shaanxi, Anhui, Guangdong, Inner Mongolia, Jiangsu, Zhejiang, Liaoning and other places, so as to reduce waste while helping the needy, zero cost assistance.

From 2014 to 2019, it assisted nearly 710,000 people.

Status of Shanghai Alliance

In Shanghai, 1,200 tons of organic waste is destroyed every day, most of which is food. When food is discarded into kitchen waste, its decay and treatment process cause a lot of carbon emissions, and it also causes garbage to besiege the city. And other environmental pollution issues.

The irreversible negative impact of biodiversity, companies, governments and communities have invested a lot of human, material and financial resources to deal with food waste.

From 2015 to 2019, the "Food Bank" delivered surplus food to more than 150 beneficiary organizations in Shanghai, communities, schools for children of migrant workers and other beneficiary institutions while helping to solve food waste. The recipients felt warm, accepted, supported and able Sense; relieve the family's economic crisis, let them invest their savings into education, improve quality education and cultural accomplishment; make the beneficiaries feel the beauty of society, and stimulate positive forces.

In addition, our Oasis Food Bank focused on the vegetables and fruits eliminated in the fresh supermarket. Most of these fruits and vegetables are still in a fresh and edible state, but they will no longer be sold because of the sale date or damaged packaging. So we want to make these fruits and vegetables that will be processed waste have a second life and return to people's tables.

Since August 2, 2019, we have carried out daily vegetable and fruit distribution activities in Tangqiao Street, Changshou Street, Changning Kaixuan Road, Anting Yuhuazhai and Pengpu

The total value is about 600,000, and 61,004 people have benefited from it.

Yuhuazhai vegetable and fruit distribution point, Yuhuazhai will use the donated vegetables and fruits to make dishes and share them with people in need

Fruit and Vegetable Distribution Site in Puxiong Street

Sharing cabinet current results

In 2016-2018, a total of more than 40,000 people from all kinds of food-needing people who need food are free to receive food.

20 intelligent sharing cabinets have been located in Tangqiao Street, Pudong, Pudong Yangshuo Street, Changzheng Town of Putuo District, Changshou Street of Putuo District, and Zhangyi Peizhi Children's Service Center of Putuo District. Two other sharing cabinets are out of Shanghai. Settled in Beijing and Jiangsu Province.

The picture shows the Putuo District Zhangyi Peizhi Children's Service Center. The angle of the heart is the angle of the sharing cabinet. The sharing cabinet has become a teaching aid for training children's behavioral ability, which is helpful to their healthy growth and is loved by children.

The biggest charm of Food Bank is that volunteers participate in every aspect of the operation. Food Bank, as a bridge and platform, will drive, coordinate and organize more than 20,000 volunteer activities in 2019. Nearly 5,000 volunteers entered the authorized distribution points of the Food Bank, distributed the most delicious food packages, visited beneficiaries, and conducted food satisfaction feedback surveys.
