

BASCO Foundation

Magura, Bangladesh.

Name of Project :

Gift food and Save to Entellus from abolition.

Project Implementation Plan :

(i) It will be collected gift for food and supplies two times in a day to Entellus once area in Kesobpur and other area in Monirampur Upazila. Local foods are Banana, Jackfruits, Jumbu, Star apple, Mango, Lichi, Guava, nuts, Chick-pea, Bread, Cake, loaf, Potato, rice, papaw etc.

(ii) It will be to conduct a social awareness workshop for behaviour change once in a year with the local people, government staff, UP Chairman and others helpful people.

(iii) It will be taken enumerate of Entellus once in a year by continuous process.

(iv) It will be implemented tree plantation for fruit`s and movement area for Entellus. So there will be purchase land. It will be made shed for living Entellus.

(v) It will be established a wild (animal) hospital for medical treatment to Entellus. If the people behave good behaviour to Entellus they abide by the direction. So it will be easy for treatment to Entellus. There will be appointed a medical team (Doctor, nurse, office staffs).

(v) It will be to appointed local 8 (eight) numbers of volunteers to taken care of and food supply to Entellus 04 (four) in Keshobpur and 04 (four) in Monirampur Upazila and 01 (one) supervisor for supervision. Supervisor will always be communicated and will

submit quarterly project progress report to Donors, BASCO Foundation authority, government offices and other officials.

(vi) BASCO Foundation authorities will visit the project area time to time.

(vii) BASCO Foundation always invites to Donors for visit the project area any time.

Budget Plan:

Item	Description	Expenditure	
		BD Taka	USD
01.	Food cost	21,19,750	25,000
02.	Medical treatment with medicine	423,950	5,000
03.	Land purchase, make shed and Tree plantation	847,900	10,000
04.	Social Awareness workshop	254,370	3,000
05.	Volunteers and Administrative	593,530	7,000
	Total :	43,39,500	50,000

Future Plan:

(i) There will be purchased 500 acre land and plantation many kinds of fruit trees for fruit production and other trees for Entellus permanent living. So Entellus can be moved free. There will be no threat from people. They will have no crisis for food. Thus Entellus will get the best opportunity for leading a smooth life and will be saving from abolition.

(ii) There will be a wild animal hospital established in the project area. Entellus are very peaceful. If people behave good behaviour

then they behave also with the people. There will be easy medical treatment for injury or sick Entellus.

(iii) By implementing this project Entellus will be saved from abolition.

(iv) For implementation the project there will need much US Dollar (BD Taka) . So our request, please donate this project and save an endangered wild animal.
