PROJECT TITLE: Mother And Baby Rescue Project (MABRP)

PROJECT AIM: Improving maternal and newborn health

PROJECT DURATION: 12 Months

PROJECT FINANCE

PROJECT COST: \$46011.39 USD

Project overview

This Project is concerned with improving their maternal and newborn health in rural areas of Lwengo District, Masaka District and Bukomansimbi District by providing the necessary materials to 750 vulnerable mothers through 15 Health Centres, 5 from each district. They will be given Maama kits, basins and Mosquito nets for the pregnant mothers.

This will handle seven hundred fifty (750) vulnerable pregnant mothers within the three districts for two years providing 750 maama kits, 750 mosquito nets, and 750 basins within those two years

Lwengo District is bordered by Sembabule District to the north, Bukomansimbi District to the north-east, Masaka District to the east, Rakai District to the south, and Lyantonde District to the west. Lwengo is 45 kilometres (28 mi), by road, west of Masaka, the nearest large city. The coordinates of the district are: 00 24S, 31 25E.

Masaka District is bordered by Bukomansimbi District to the north-west, Kalungu District to the north, Kalangala District to the east and south, Rakai District to the south-west, and Lwengo District to the west. The town of Masaka, where the district headquarters are located, is approximately 140 kilometres (87 mi), by road, south-west of Kampala on the highway to Mbarara. The coordinates of

the district are 00 30S, 31 45E. The average altitude of the district is 1,115 metres (3,658 ft) above sea level

Bukomansimbi District is bordered by Gomba District to the north, Kalungu District to the east, Masaka District to the southeast, Lwengo District to the southwest and Sembabule District to the northwest. Bukomansimbi, where the district headquarters are located, lies approximately 26 kilometres (16 mi), by road, northwest of Masaka, the nearest large city. This location is approximately 150 kilometres (93 mi), by road, southwest of Kampala, the capital of Uganda and the largest city in that country. The coordinates of Bukomansimbi District are: 00 10S, 31 39E.

Need of the project

Over the past 6 months, COVID-19 has caused unbearable illness and deaths in people and has devastated vulnerable persons and their families, even some having no hope of living any more. The rate of death for pregnant mothers is increasing due to lack of services and materials for use under the antenatal period. Some who survive death give birth to babies in alarming state. Mothers face such challenges due to lack of transport and the required materials to help them in the antenatal process.

Infinity Network Development Foundation is operating where there is a need for poverty alleviation and sustainability for the families to have some money for medications, to send kids to schools, clothing, or paying for other social services. This project will help 750 vulnerable pregnant mothers to get maama kits, mosquito nets, basins and transport whenever they go for review at the Health Centre. Within this COVID-19 lockdown, pregnant mothers are struggling since the COVID-19 lockdown started in the country. They also move long distances due to the location of health units

Since 2015 up to date, a lot of mothers have been suffering from lack of materials to help at the pregnancy stage, ill health, poor hygiene, inadequate food security, and poverty. This is because of vulnerable families they are in not having a clear source of income. For this case Infinity Network Development Foundation comes up with this project where these mothers are to be helped

Overall Goal

COVID-19 morbidity and mortality in mothers are reduced.

Objectives

- To identify and disseminate vulnerable pregnant mothers affected by the COVID-19 lockdown
- To provide maama kits, basins, mosquito nets and transport to vulnerable pregnant mothers during the antenatal and postnatal
- To train vulnerable pregnant mothers on how to safeguard during the time of pregnancy

Organization information

Infinity Network Development Foundation Uganda is a Community Based Organization which was established with aim of complement to the Sustainable Development Goals (SDGs). It is registered by the government of Uganda under REG.NOs: **MMC/KB/706/2018, CD/LDLG/2434 & CD: 871** operating in districts of Masaka, Lwengo and Bukomansimbi. INDF-Uganda provides the following services; Health, Human Rights and Community Development. Infinity Network Development Foundation Uganda is a linkage to those sites offering Antiretroviral Therapy

Monitoring and Evaluation

The Infinity Network Development Foundation members working together with the District Health Officers, District Community Development Officers and Local Leaders will be responsible for the monitoring and evaluation of the project activities. The project coordinator will spearhead the monitoring the implementation activities of the project. These members of the monitoring team shall have weekly meetings in physical or online to evaluate the project progress and thereafter the project co-coordinator after every week will send you a report of the achievements and realization of the predetermined objectives. On completion of the project the coordinator will sent a final narrative report and photography to verify the completion of the project.
