6. Continued Engagement

61% of participants indicated interest in the volunteer program.

90% indicated interest in community events.

Reflections about Tech2Peace

- "It has made me understand the value in talking, without trying to reach a solution - just learning to see each other and to listen."
- "I want to share it with my family because it was inspiring living in this community for two weeks."
- "It was a special and important experience and I would like as many people to share it and hear about it."
