**ARGENTINE KIDS
LIVE UNDER THE
POVERTY LINE**

Children face an absence
of emotional support and
intellectual stimulation.

This results in damaging
behaviour like drug and alcohol
abuse, crime, or problems with
educational attainment.

From childhood, they can be
condemned to a life of poverty.

_ TOUGH REALITY, DON'T YOU THINK SO? _

THE SOLUTION?

Early intervention through nurturing spaces for play and development

To give children the chance to flourish their potential

Through play, kids gain back their childhood, providing a safe environment for emotional support and intellectual stimulation. They learn to express themselves and adopt new approaches to the challenges of their daily lives.

We support kids to create the brightest possible childhood and future
