

Empower the Future

Our Mission

Vijana Amani Pamoja is a Kenyan community scheme founded to support young people's health and wellbeing.

Our mission is to integrate social and economic values through football by creating a pro-active health environment.

Our programs encourage healthy, active lifestyles through football and support young people with future skills for life.

Our Impact

GOOD HEALTH AND WELLBEING

45,000 young people have participated in VAP's health programs. Participants are 71% more likely to know their status than their peers and their HIV knowledge increases by 20% on average.

QUALITY EDUCATION

VAP's youth-led education programs support young people in STEM learning and mobile libraries. Participants develop critical thinking, creative problem-solving, and leadership skills.

GENDER EQUALITY

VAP has single-sex programs for girls and boys that focus on building gender-equitable norms, question societally-imposed gender roles, and encourage women to participate in sport.

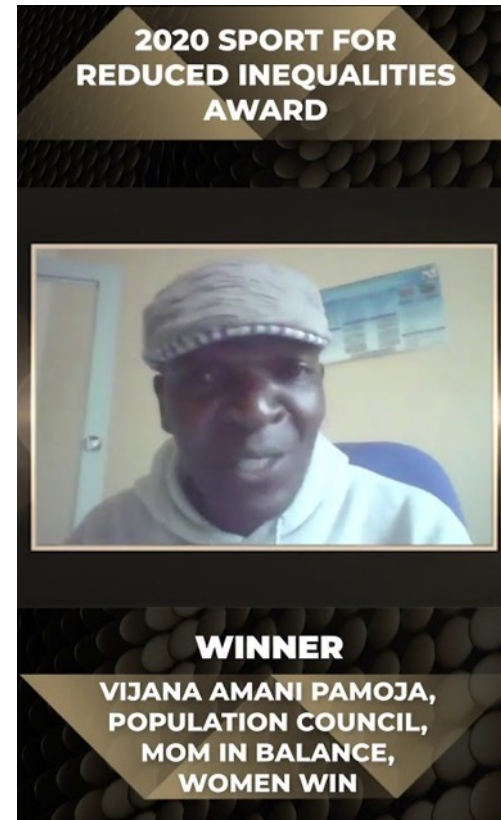

EMPLOYABILITY AND ENTREPRENEURSHIP

400 young people have graduated from E+E program of which 92% were women and 76% are employed or have a job in the pipeline.
