2019

visit to Londiani

IMPACT OF THIS PARTNERSHIP:

- · Increased capacity development in both hospitals sharing of knowledge, experience and expertise.
- Increased health systems strengthening across all hospital services.
- · The operating theatres have enabled comprehensive obstetric care to be provided at the hospital.
- Contribution to an increase of 33% in the number of mothers delivering in health facilities across the region (capacity development, awareness, Maternal Health Shelter)
- Ongoing reciprocal education in areas such as Obstetrics, Tropical Medicine, Trauma, Surgery, Paediatrics, Perioperative Medicine, Professional Development, Infection Control and Project Management.

NEW FOR 2019/2020:

- New Partners NUI Galway and Kenyatta University Nairobi
- · Expanded County Wide Trauma Programme
- · County Wide Non-Communicable Disease Programme
- · Continuing perinatal maternal newborn health programme

WHAT CAN YOU GIVE?

We need team players, logistics, supplies, skills sharing across programme areas, hospital administration general volunteers and supporters.
