Don't just talk about it, act!

Marion Mück
1st Chairwoman

Preface

During my trip in 2007 when my husband and I travelled through the beautiful country of Myanmar, we repeatedly encountered great poverty that affected and saddened us deeply. When Cyclone Nargis hit the country in May 2008 leaving many parts of the Delta destroyed, thousands homeless and more than 100,000 people dead we decided to react instead of just talking about the tragedy. This was the founding moment of Projekt Burma e.V.

Thanks to the many large and small donations we celebrate 10 years where we as Projekt Burma e.V. have been able to make a big difference in many regions of the country.

Myanmar is still one of the poorest countries in the world. The diverse population structure and the many ethnicities make it a fascinating country. Yet conflicts often arise as a result of this diversity. Long years of military dictatorship and oppression have weakened the country in many areas. Child labor, the lack of education and a high mortality rate for children and mothers are reality for many in Myanmar.

Through encouraging community engagement in all our projects, Projekt Burma e.V. helps to break the cycle of poverty in order to support living a life in dignity, so every individual has the chance to shape their own future. It is our aim to focus on understanding the obstacles that inhibit people from realizing their development goals while enhancing the abilities that will allow them to achieve measurable and sustainable results, also referred to as capacity building. We would like to encourage you to support our cause with a donation. Together we can shape the future for many more lives.

Sincerely Marion Mück, 1st Chairwoman

Thank you for
10 years of support!

Projekt Burma e.V.

From left to right: Tina Werringloer, 2nd chairwoman, is a Midwife and M.A. Disaster and Emergency Management. Together with Marion, she leads the projects from Germany.
Marion Mück, 1st Chairwoman, is the founder of Projekt Burma e.V. and the heart of every project.
Dr. med. Gunver Werringloer, 3rd Chairwoman/Treasurer, is a specialist in general medicine in her own office and looks after our local health staff as well as the future medical doctors who will join the team in Myanmar

Education

Education is the foundation for a better and independent life. Based on this knowledge we build schools in different regions and sponsor students through their choice of education and training.

Family sponsorships provide the means to leave poverty behind in the long-term and lead a self-determined life.

Helping people to help themselves is our overriding aim.

The most effective help is always that which puts people in the position to shape their own lives free of need.

Health

Projekt Burma e.V. supports activities to establish a sustainable public health system in Myanmar. With the construction of rural treatment centers and small hospitals as well as training staff, we can significantly improve medical care for the general population.

Our main focus is on women and children, as Myanmar has a high maternal and infant mortality rate. 282 out of every 100.000 women die before, during or after giving birth, often simply because a treatment center is too far away to reach in time.

Disaster Relief

Myanmar is a disaster-prone area. Regardless the cause of the disaster, it is always the people that suffer the consequences. Particularly in these situations it is paramount to assist the affected population with good medical assistance, appropriate food supplies, hygiene measures as in sanitation facilities and hygiene articles.

Through our on-site operations and cooperation with local organizations, we are able to positively contribute to the improvement of disaster situations, so that a life in dignity is possible, even under the most difficult circumstances.

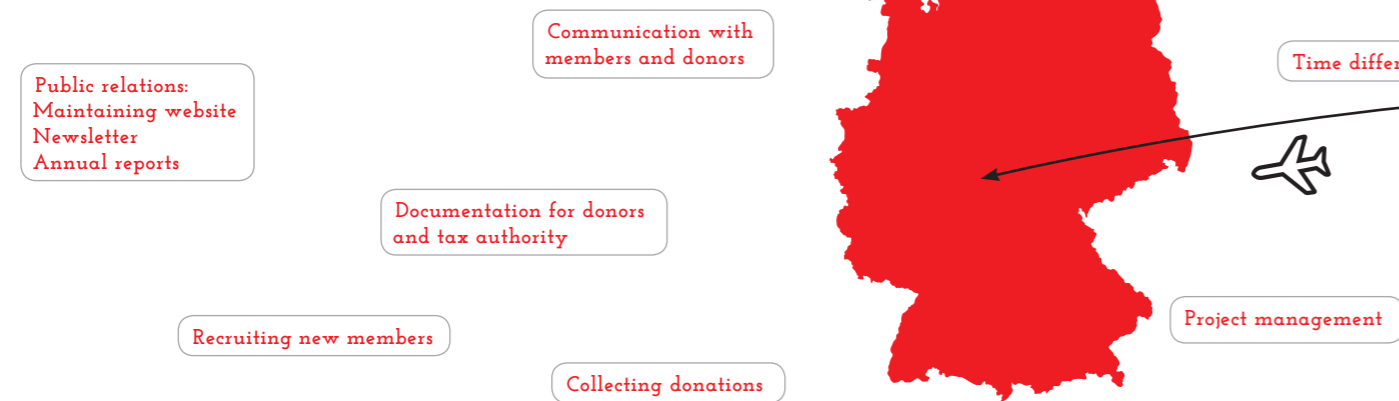

Water & Hygiene

Access to clean water is a human right. Polluted drinking water is one of the leading causes of death for children under the age of 3. Myanmar has one of the highest maternal and child mortality rates that are directly linked to inadequate nutrition, hygiene and sanitation. (Source Unicef 2017)

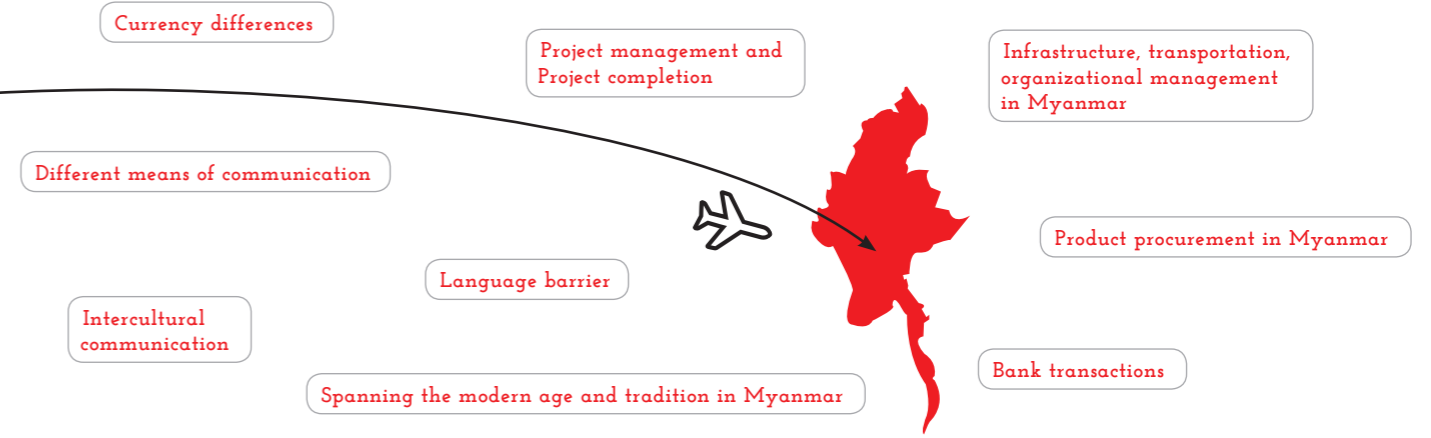

By building wells and sanitation facilities in our project regions, we ensure that people have access to clean water and therefore we can prevent many diseases like diarrhea.

No job too big...

As a small non-profit non-governmental organization in Myanmar, countless tasks need to be performed "behind the scenes" on a daily basis. Here in Germany, we give account to our members, our donors and the German tax authorities on how we have spent our financial contributions.

... no task too small

In Myanmar we give account to our beneficiaries. The challenge lies in ensuring all that all parties concerned get a say in our decisions. In addition, we must recognize that intercultural encounters can lead to misunderstandings. This of course requires particular sensitivity on both sides. Therefore, the basis of our communication is cooperation full of respect and partnership and an open and honest communication in order to provide true confidence.

Give happiness!

Are you happy? Do you have everything you need in your life and even more?

Would you rather do something meaningful for your anniversary, wedding anniversary, birthday?

You can make a difference benefitting our good cause by collecting donations for Projekt Burma e.V. instead of receiving gifts!

Provide your guests with our bank account details in advance and specify a purpose. The contributors can be provided with a donation certificate on request and you will be informed as to how much was donated in total. You can also set up a donation box and collect the donations yourself on your day of honor and transfer the amount to our donation account. You could even send surprising birthday greetings to a dear friend by donating a tuition fee, a bag of rice, as school uniform or a vaccination for a newborn baby.

Help us empower the poorest of the poor by providing education, healthcare and hope.

District Savings Bank Esslingen
IBAN: DE73 6115 0020 0101 2813 71
BIC: ESSLDE66XXX

The people of Myanmar are already thanking you in advance for your support..

We are registered with Amazon Smile!

You can easily do good

while you are shopping through Amazon.

No extra cost involved! For every purchase made via Amazon Smile, Projekt Burma will then receive 0.5% of the purchase amount. A marvelous idea!

Prayers alone do not help!

Myanmar remains one of the poorest countries in the world. The diverse population structure and the many ethnicities make it a fascinating country. Yet conflicts often arise as a result of this diversity. Long years of military dictatorship and oppression have weakened the country in many areas. Child labor, the lack of education and a high mortality rate for children and mothers are a reality for many in Burma. With your help Project Burma e.V. is here to break the cycle of poverty.

Help that succeeds! That's a promise!

Application of membership

If you want to become a member, fill in the application and send it to the address on the back.

I apply for membership of Projekt-Burma e.V. from: _____

Name, First Name: _____

Street: _____

Postcode, Location: _____

Date of birth: _____ Telephone: _____

E-Mail: _____

The membership fee is currently **€4 per month, or €48 per year**, and will be paid for the first time with membership of the association in full for the calendar year that is already in force. The statutes form the basis for membership and must be observed.

Location, Date, Signature

Direct debit authorisation: Hereby I revocably authorize Projekt-Burma e.V. to collect the membership fee monthly or once a year at the expense of my account by direct debit. If my account does not have the required coverage, there is no obligation on the part of the account-holding financial institution to redeem it.

Account: _____

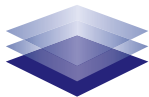

Holder: Name of bank: _____

IBAN: _____

BIC: _____

Location, Date, Signature

This data is processed in compliance with data protection internal management saved and processed.
