Rebuilding Hope

A new home in Ukraine for displaced people of Donbass

NOVOYARYCHIV (Львів) Lviv Oblast

Since the beginning of the war in Ukraine, the Novoyarychiv Territorial Community has sheltered more than **2,000** internally displaced people from Donbass and the regions under attack, **including 580 children**, and provided them with temporary housing in apartments, houses and educational facilities.

The community provides internally displaced people with food and basic necessities, **but adequate facilities are lacking** to accommodate all families.

Over 150 people who fled Donbass, half of whom are children, live in a temporarily requisitioned school. **In September, however, with the reopening of the school year they will remain homeless.**

To help them an old hostel has been identified that can be transformed and renovated.

**It is urgent to begin the works to create 30
apartments for these families**

The current conditions of the abandoned hostel

As it is now

How it will become: a complex of 30 independent apartments with common areas

What will be achieved?

- ✓ 30 self-contained apartments with kitchen and bathroom + common outdoor areas

Who will use the apartments?

- ✓ Families with children from areas destroyed or occupied by Russia.

How will the community watch?

- ✓ The community would sign a rental agreement that must be renewed every three months, so as to check that the apartments remain in order and that the inhabitants respect the rules.

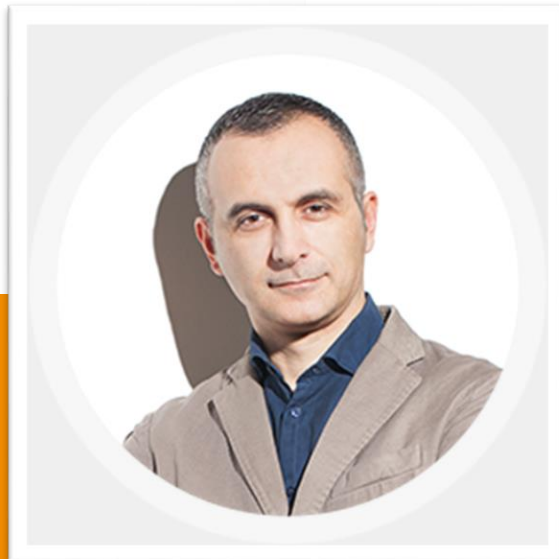

COSTS

- Total cost for the complete renovation of the building, the construction of the common areas and the construction of 30 independent apartments with bathroom and kitchen: **€ 506,700**
- Average cost per apartment: **11.590 €**
- Cost for the furnishing of each apartment (appliances + furniture): **4.600 €**
- Cost for the playground and the indoor and outdoor common areas: **21,000 €**
- Average number of persons per apartment: **3-4**
