

We created a place
where people feel at home.

with the support of

LIFE QUALITY

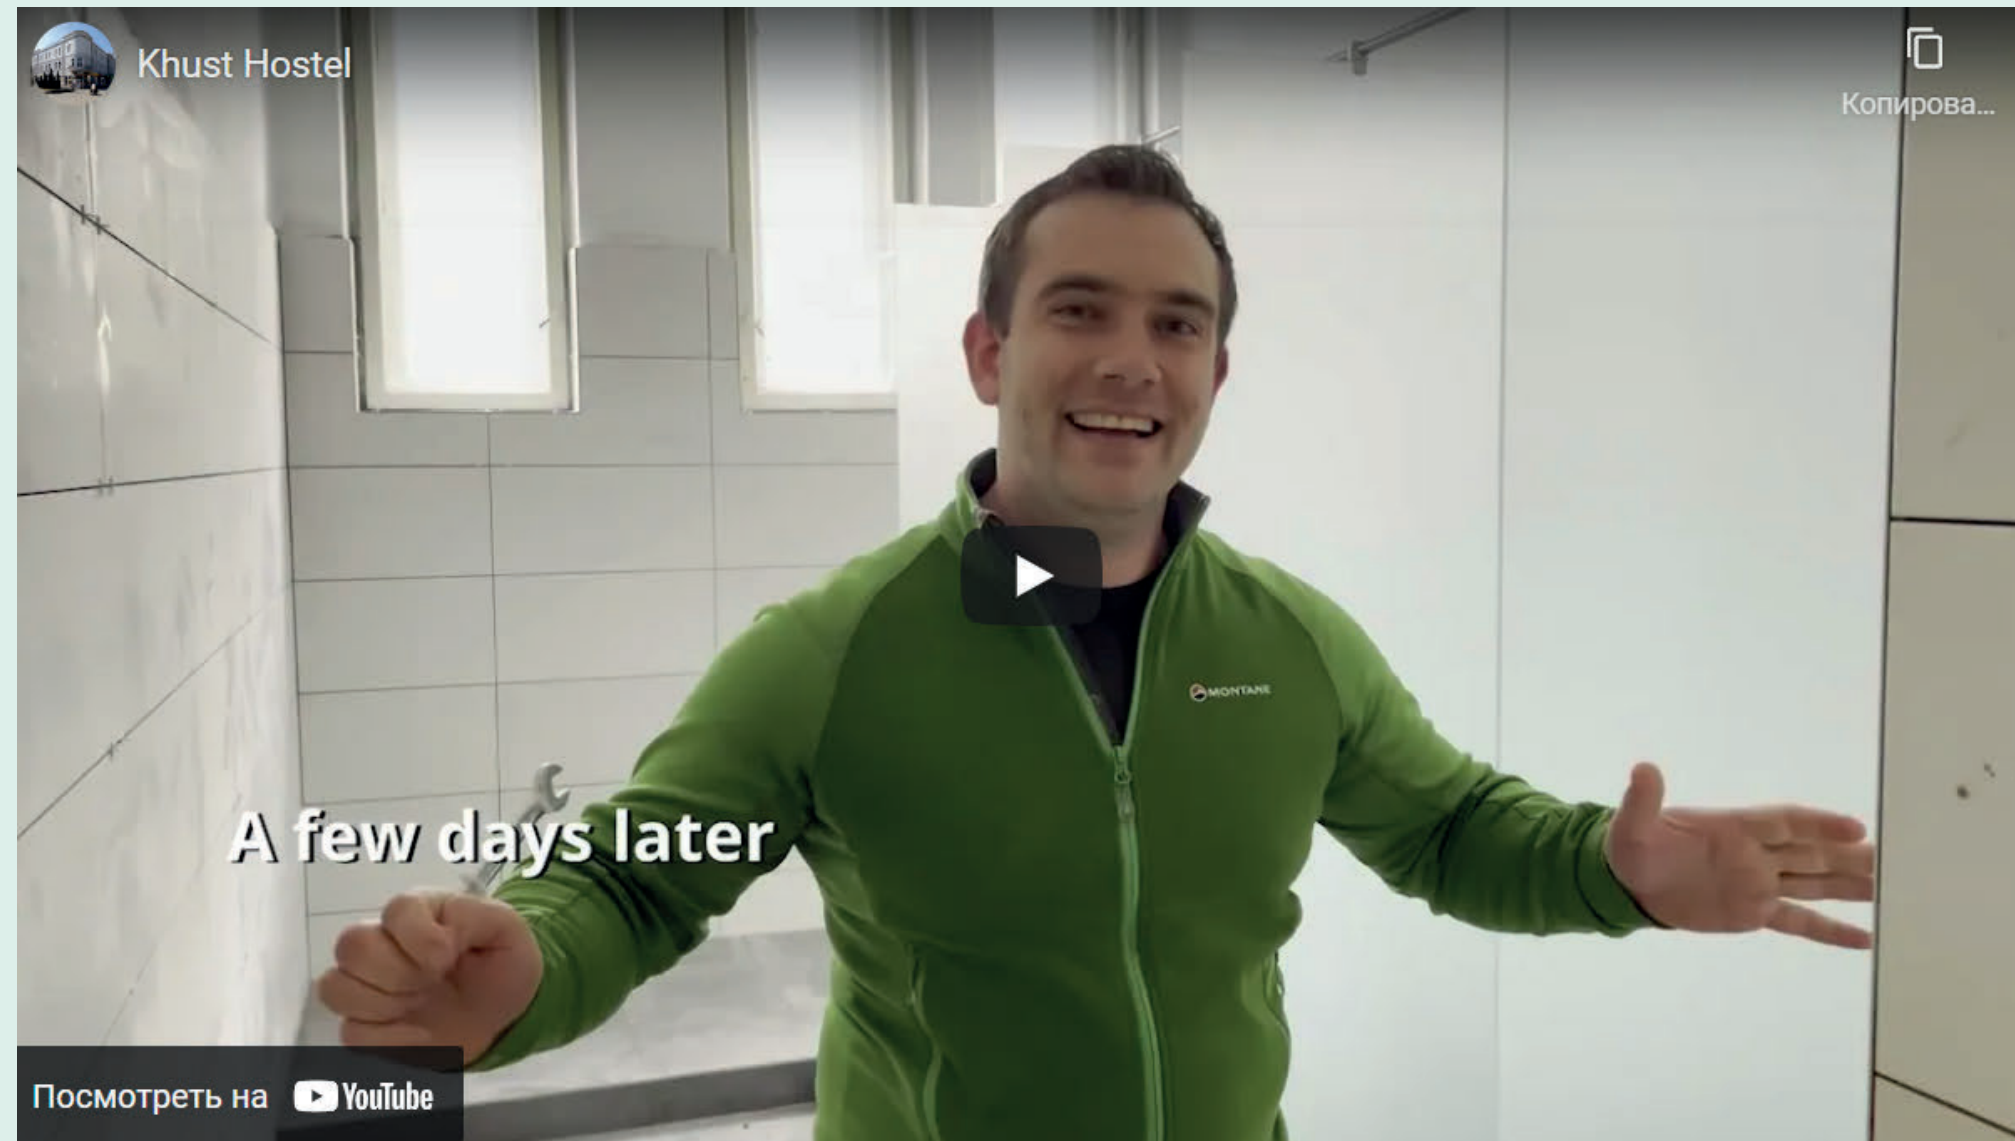

Safe place for living

6.5 million Ukrainians became internally displaced, and 3.2 million went abroad due to the full-scale invasion of Russia. Many of them have nowhere to return. Our goal is to provide a comfortable shelter for those who have been forced to leave their homes.

Welcome to Hust Hostel

Khust is a cozy hostel in the Transcarpathian region, which has become a temporary shelter for Ukrainian migrants. It has just opened after reconstruction for people who have been forced to leave their homes.

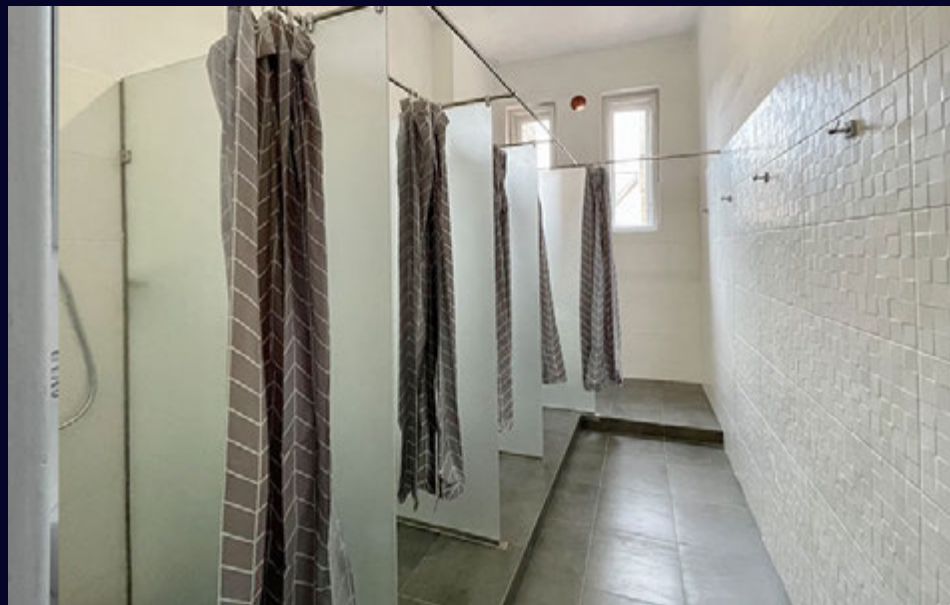

No hostel can replace a home.
But it can provide decent living conditions

35 renovated rooms with new furniture are designed for 2, 4 and 6 people.
The total number of beds is 150

The modern kitchen is equipped with the necessary appliances, dishes and dining tables

Fully renovated bathrooms and toilets

And a few general areas:
children's playground, co-working and relax areas

We ask for your support

Currently, accommodation in hostels costs \$5 per person per day. This is the minimum amount that allows us to cover the salaries of employees, utilities, maintenance, household expenses, taxes and partially return the investment in repairs. However, for people who have lost their homes and jobs, even this price is high.

At the expense of charitable contributions for two months since April, we have already done a lot, but not enough.

To make housing free for 150 people, \$22,500 per month is needed

And we need your support in this.

Thanks to donations, accommodation was free for

58 children

We were able to reduce accommodation cost by 30% for

260 adults

Together we have collected

\$10168

Spent in 2 months

\$7488
