

# Christmas for 500 families in Lagos Slum

Our community impact Christmas project makes Christmas possible for families with low or no income, who are experiencing poverty and cannot afford to put decent meals on the table or provide Christmas gifts for their children. Every family deserves to experience the love, hope and joy of the season and children should feel loved, special, and valued in the joyful spirit of the holiday season.

## Food for Families

No child should go hungry, more so at Christmas because Christmas is a season of love, hope and joy and every family deserves to have food on the table. It is reported that 4 in 10 Nigerians live below poverty line and this is the reality of people who live in the communities that we serve. With the constantly rising inflation and cost of living, most families in our community cannot feed their children. At Christmas, we want to support these families and alleviate their plight by providing nutritious food items. With this, mothers can derive the joy of cooking homemade meals for their children during the holidays.

## Christmas Gifts for children

Christmas should be a magical season for children but majority of the children in our community do not experience this magic. Instead, Christmas is a luxury to them as they have never shared in the joy of receiving a Christmas gift. A thoughtful gift delivered by "Santa" will make them feel loved, special, and valued in the joyful spirit of the season and allow them the opportunity of experience Christmas.

## About CCI

Community Compassion Initiative (CCI) aims to alleviate the plights of the underprivileged in indigent communities. We seek and offer relief through educational support, economic empowerment, and welfare. Our work is hinged on two pillars - Education Support and Economic Empowerment, allowing us to contribute to the Sustainable Development Goals.

## Support CCI

Join us for our Community Impact Christmas Project and help provide gifts for children and food for families in need:
