

Niños de Guatemala

## HELP US IMPROVE OUR SCHOOL NUTRITION PROGRAM

Niños de Guatemala (NDG) is a non-profit organization that provides quality education and holistic support to children from underserved communities in Guatemala. We work towards breaking the cycle of poverty through education and community development. A critical aspect of our work is ensuring that our students have access to proper nutrition, which is essential for their cognitive development, academic performance, and overall well-being. We operate 3 schools outside Antigua Guatemala serving 540 students from low-income families.

### DID YOU KNOW?...

In the communities we serve, many families struggle to provide their children with adequate nutrition due to economic hardships. This lack of proper nutrition severely impacts children's ability to concentrate, learn, and grow healthily. At Niños de Guatemala, we recognize that proper nutrition is essential for student performance. Many of our students arrive at school on empty stomachs, hindering their ability to learn and stay focused.

### OUR GOAL

We aim to provide a nutritious meal every morning to prepare our students for the day ahead. This initiative is crucial for our 540 underprivileged students attending our 3 schools 11 months out of the year.

### HOW CAN YOU HELP?

This Giving Tuesday, your support can help transform the lives of our students. By donating to Niños de Guatemala through GlobalGiving on December 3rd, your donation will be matched—doubling your impact! Your contribution will ensure that every child in our schools receives the nutrition they need to thrive academically and physically. We are working hard to break the cycle of poverty, but we need your help to reach our goal. Together, we can make sure no child goes hungry and create a brighter future for them—one meal at a time. Donate today and be part of this life-changing movement!

### OUR GOAL TO REACH IS: \$30,000

This budget covers:

- ONE MEAL A DAY DURING 11 MONTHS (JANUARY TO NOVEMBER)
- KITCHEN EQUIPMENT AND MAINTENANCE
- HEALTH EDUCATION MATERIALS AND WORKSHOPS
