

Helping

UKRAINE

Nordic SOS Ukraine is a nonprofit organization that helps refugees from Ukraine who are fleeing the war with Russia.

Our organization is registered in Norway and operates on a voluntary and unpaid basis.

Our organization collects equipment, such as sleeping bags, power generators, clothes, hygiene- and baby products, water and night binoculars, and sends them to Ukraine to help the people in need.

Our organization also helps refugees who have already arrived in Norway or other Nordic countries by providing them with social events, activities, and support.

Our organization has a fundraising campaign to cover the transportation costs of sending the equipment from Norway to Ukraine. We also raises awareness about the humanitarian crisis in Ukraine and the plight of its people.

Support Ukraine!

Join our donation campaign.
Together we can do more!
