- Community centres
- Education
- Food distributions
- Clothes distribution
- Medical assistance
- Transportation
- Shelter

UPDATES FROM THE GROUND

Since Russia invaded Ukraine, millions of people have fled to neighbouring countries. In total, over 8 million Ukrainian refugees are displaced in Europe. This massive flow of people has tested the solidarity system across Europe. Although Ukrainians have generally been welcomed in other countries in a way that is unfortunately unusual for refugees, both the people leaving the country and those staying remain vulnerable and in precarious conditions.

DA supports groups on the ground by sending shipments of aid items that are requested by our partners. Recently, Distribute Aid set up a partnership with Lifting Hands International, a US-based NGO, to send monthly shipments to the country. Due to the volume of aid requested from the country, DA wants to scale up their support even further.
