VISIONS FOR CHILDREN e. V.

is a registered non-profit organisation from Hamburg. Our vision is a world in which every child can read and write. In doing so, we are acting in accordance with the fourth goal for sustainable development of the 2030 Agenda: ensuring equitable and quality education.

We are focusing on the following approach: equipping schools and thus creating a pleasant learning environment. We create a minimum standard of school infrastructure and thus the framework conditions for a solid basic education for a promising future for children in crisis regions.

In our work, we act independently of political, religious or ethnic interests.

We are an interdisciplinary team with over 17 years of experience in the construction and education sector and a strong network in Germany and the project countries.

We invest in existing structures and strengthen them. In doing so, we reconstruct and work with existing resources. School buildings are extended, sanitary facilities are installed, classrooms are equipped with basic fixtures and fittings and students and teachers are provided with the necessary materials. This is the only way that sustainable engagement can work. Through regular project visits, flexible, unbureaucratic structures and collaborative work, we create transparency and immediate results.

WHY EDUCATION? THERE ARE WORLDWIDE...

LOCATION**
Alebtong district in
Northuganda

**PLANNED PROJECT
DURATION**
August 2023 -
July 2025

**LOCAL
PARTNER**
Link to Progress
(LTP)

PROJECT GOAL & IMPACT

A high-quality learning environment is being created at seven state elementary school by improving hygiene standards, providing access to water and menstrual hygiene and promoting sustainable school structures.

Run-down latrines

OUR PROJECT PARTNER

Link to Progress (LTP) is an NGO founded in Uganda in 2008 that focuses on providing basic hygiene infrastructure, access to basic education and quality learning for vulnerable communities.

CONTEXT

- Consequences of 20 years of civil war noticeable: weak (educational) infrastructure, high number of orphans
- Run-down latrines, no hand-washing facilities, no school meals
- 2 years of school closures due to the pandemic: Education deficit of 2.8 years, increase in school dropouts & teenage pregnancies
- Severe psychological stress among the students

TARGET GROUP

8,908 students aged 6-18, including 4,327 girls and 4,581 boys

79 teachers, 2 educators, 7 cooks and 3 security guards

35 parents of the parent-teacher committees, 210 parents through savings groups

91 members of the school management committees

approx. 2,100 people from outside the school have access to water

Total: min. 11,435 people

PLANNED MEASURES

- Training of the partner organization LTP (Link to Progress)
- Provision of learning materials
- Construction and renovation of 80 latrines with integrated washroom for girls, 7 wells and 7 hand-washing facilities
- Construction of stoves and introduction of school meals
- Training on menstrual hygiene
- WASH workshops
- Workshops on mental health and inclusion in everyday school life
- Workshops on maintaining the sanitary infrastructure and promoting sustainable school structures
- VSLA-workshops for parents
