Requesting for support: School uniform 2023/24

I would like to introduce us as the EOTO team (Each One Teach One 134-973 NPO), a team of young South Africans trying to make change in our communities, we are focused on skills development, talent enhancement through education, Cultural and Educational exchange program of learning and Arts & Culture. Founded 18th March 2014 and has been playing an important role in the community of Kliptown and other communities are in the similar situation as us.

Through one of our educational programs which is aimed to develop a culture of support to the need of educating the young South Africans; Education is the only liberation tool from mental slavery. It is in our interest to support every young scholar who resides in the community of Kliptown with the right to education and source out all forms of resources to enhance better education systems in the country. The program has several activities aim at different levels of education in formal and non-formal education.

School uniform is a basic need when it comes to our education system, each and every school in South Africa requires school uniform from all students/learners who are in the school premises with the aim of getting education. Living in the community of Kliptown where the unemployment rate is at 72% and disadvantaged families don't get even a little support from the local government. We as an organisation have take the initiative of starting a fund-raising project that will benefit the young people of Kliptown by providing school uniforms and also mentoring sessions.

A set of school uniform per learners' costs around R900 to a R1000 depending on the size of the learner and also the school they are attending. We have done the school uniform project for the community of Kliptown which we have supported a number of about +150 young people from the community of Kliptown. With the year ending soon and in 2 months' time we will be starting new classed and new school, we always try our best to prepare for the young people in time so that when schools start next year, we don't stress about raising funds for the school uniform.

For next year we are aiming to provide a number of +250 school uniforms for the community of Kliptown, we know when times like this come most of these families begin to panic and start stressing about the uniform for their young people. We are kindly asking for you support in term of donation for buying school uniform for our young people to have a great start with school next year. Please see the table below explaining the funds needed.

Item	Description	Cost per item	Quantity	Total
Shoes	Black school shoes	R350	150	52500
Trouser/ Skirt	Grey school trouser	R180	150	27000
Shirt	School shirt	R90	150	13500
Socks and tie	School socks and tie	R90	150	13500
Jersey and Bag	School Jersey and bag	R250	150	37500
	Total per child	R960		
	Total cost 150 children			R144 000

With an amount of R144 000 and estimated to be an amount of \$7 830.21 we will be able to cover for a number of 150 young people from the community of Kliptown, but also looking at getting a discount which can also accommodate a few greater numbers of young people who are not in the list. Our target is to cover for 150 young people but if we do get more funds more young people will be involved as well.

For more information about the school uniform project please do not hesitate to contact us.

Yours in community development
Angel Maas
