There's a mother out there for every child
Мама каждому малышу

The charitable organization “Bari Mama” has the following objectives

- Prevent the abandonment of children because of disability
- Support children with disability living in the orphanage, through education programs, and recreation activities
- Promote reunification of abandoned children and their biological families.

Details of “Bari Amar” (Bari Summer) program

One of the brightest and most positive programs of our organization is “Bari Amar”. It has been implemented for already seven years. The team organizes a summer camp for children with disability living in orphanage or in low-income families, and children living in remote close-to-border villages. Bari Camp is located on the shore of Lake Seven.

child

We implement the programs directly, by ourselves, to ensure that every cent goes to the children's needs. And most importantly, we do everything with great love and care. Our supporters know the necessity of getting the children out of the daily stress and awarding them with happy moments. Other than recreation activities and fun, children gain knowledge on first aid, dealing with emergency situations, as well as Armenian history and culture, national songs and dances.

Bari Camp

One of the annual programs of Bari Camp is the education camp where youth form teams and participate in trainings such as “Principles of Startups”, “Competitive Ideas”, “Foundations of Marketing and SMM”, “Digital Marketing”, “Budgeting”, “Fundraising”, etc. The trainings are conducted by the senior staff of well-knowns organizations or high-level freelance professionals. The youth develop their own projects and present it on the final day. Top three ideas are then implemented with our support. Examples of implemented projects are the technical school on Vardenis, youth education center in Syunik and plant reprocessing center in Lori.
