

BEDS for KIDS needed

Community Warehouse collects donated items and gives them to local families in need. We are desperately in need of twin mattresses that can be passed on to families with children who are sleeping on the floor for lack of a bed.

To fill every child's wish for a bed, we need to have 30 additional twin mattresses donated each week.

Can You Help? Bring us your gently used twin mattresses or call us for a pick up. Tell others about the Community Warehouse. Please visit our website for more information.
