↑ SOUTH WARD T.O.S.L. - EQUIPMENT PLAN

Scope of Work

BHI is designing and overseeing construction for a 10-building, 143-bed Maternal Center of Excellence at the Koidu Government Hospital for expectant mothers in the region. BHI provided programming and schematic design, design development, design development review, construction documents, bidding, sourcing and tendering.

Currently, construction of Phase I is underway with BHI providing full construction administration, supervision, and support.

Programming

Medical training facility; staff housing accommodation; cafeteria and staff housing cooking facilities; administration rooms.
