Construction Of Masajid

COMMUNITY SERVICES PROGRAM

Under our Community Services Program, we are actively engaged in the construction of Masajid projects across Pakistan, aiming to provide accessible and dignified places of worship for communities in need.

MASJID UMMAT ULLAH

Masjid Ummat Ullah, constructed in 2025 in the peaceful village of Baseen Gilgit Baltistan, stands as a vital spiritual and communal center for the local population. Built to serve the religious needs of approximately 150 families, the mosque has become a hub for daily prayers, Friday congregations, Quranic education, and community gatherings. The masjid also plays a key role in nurturing Islamic values among children and youth while offering elders a space for reflection and social interaction. Its simple yet purposeful structure complements the natural beauty of the region. The project was made possible through the generous support of our respected donors and volunteer efforts of the local Alkhidmat Foundation Team, reflecting their deep devotion and commitment. Today, Masjid Ummat Ullah stands not only as a place of worship but also as a symbol of faith, brotherhood, and hope for future generations.
