

Children's and Adult Hospital

NEWBORN – CHILD – ADULT

Our mission in all branches is 100% success.

 LÖSANTE is a  LÖSEV  KENT establishment.

In order for me to see a bright
tomorrow...

Donate a brick!

For years by giving one to another, we have saved the lives of thousands
of children with leukemia.

Even after our nation's most equipped Oncology Center and Lösante
Hospital were built, we are confident that you will not abandon us.

“Let us not allow Humanity or people to die”

We have created a masterpiece with a tiny budget.

“We believe that there is nothing more valuable than a child’s life and act accordingly.

We endeavoured to make our dreams and ideals come true.
We put into practice the next century’s LÖSEV Kent and
Oncology Hospital.

Our faith, commitment, trust and love become our strength
to accomplish our goals.

You proved that humanity is not dead therefore we will
fight harder to save lives.

As our children say “A brighter day starts tomorrow”

We Are Open!

Children's and Adult Hospital

WHY DID WE OPEN A HOSPITAL LIKE THIS?

Health is very important for every one of us. We believe we can save every life, adult or child.

In Turkey, nearly 200.000 people are diagnosed with leukemia or cancer every year. Unfortunately, this number is increasing.

We aim to increase the 20% success rate of curing cancer to 100%.

We seek to save lives and share our 16 years worth of private hospital experiences with the world in all medical branches.

We believe in all of our children's and adult's ability to acquire the best treatment options in equal conditions. Without differentiating between rich or poor, we strive to heal all of our patients.

Pediatric Hematologist - Oncologist

“İNSANLIK ADINA KURDUĞUMUZ BU KURULUŞTA HAYATIMIZI HASTALARIMIZA ADAYACAĞIMIZA, ONLARIN HAYATLARINA MUTLAK ÖNEM VERECEĞİMİZE, SAYGI GÖSTERECEĞİMİZE, DİN - DİL İRK - MEZHEP VE CİNSİYET FARKI GÖZETMEDEN EŞİT DAVRANACAĞIMIZA, HİÇBİR MADDİ VE ETİK DIŞI ÇIKARIN MESLEĞİMİZ VE VİCDANIMIZIN ÖNÜNE GEÇMESİNE İZİN VERMEYECEĞİMİZE, HAYAT KURTARMA ÇABAMIZI DÜRÜSTLÜK VE ONURLA YAPACAĞIMIZA SÖZ VERİYORUZ.”

 **LÖSANTE**
Çocuk ve Yetişkin Hastanesi

MORE THAN JUST A HOSPITAL...

Traditional hospitals often have dark corridors that smell of tincture of iodine, sullen doctors, rooms filled with 6 in-patients, an assurance that you will have to provide all outside necessities and only receive the service you can afford. Understanding this last point we have made the center like a dream. We all have the right to be treated with the best health care at the hospital that makes us feel safe, valuable, and special.

Children and Adult

Polyclinics in Surgery and Internal Medicine

50% of our hospital is reserved for children and the other 50% is for adults. Cardiology – gastroenterology – orthopaedics – brain surgery – gynaecology and obstetrics – new born – anaesthesia and reanimation - ophthalmology – general surgery – urology – otorhinolaryngology – breast center – radiology – radiotherapy – bariatric – psychiatry – dermatology – physical therapy – cosmetic dermatology – endocrinology – allergy – neurology – nephrology – nematology – metabolism – pulmonology – cardiovascular surgery – paediatric surgery – sleep center – home care center – genetics – stem cell and umbilical cord bank – children and adult dentistry

Infant, Child, And Adult...

Our departments include units from cardiology to new born, from dentistry to ICU for every infant, child, and adult.

All Single Rooms Have a Bed for Visitors

All of our all hygienic in-patient rooms are single where our patients and their visitors feel comfortable.

Tıbbi Sekreterlik

In-Patient Pediatric ER and Child Services

50% of our hospital is reserved for children. We reserve clinics for new-borns to 16 years old. Neurology, allergy, paediatric surgery... We serve in every branch.

Our Polyclinic Services

One of our floors is designed for adult polyclinics while one of them is only for children. We have everything from new-borns to geriatric polyclinics to physical treatment to radiotherapy in all of our medical branches and treatment possibilities.

Out-Patient Clinics

This includes cardiac angio, colonoscopy, gastroscopy, cystoscopy... We have reserved marvellous service with the best technology for those who have operations but do not require staying in the hospital for a long time. Here without waiting in line, without getting stressed while sipping your tea or watching a film, you can recognize that all the work that needs to be done will be finished....

Operating Rooms

We have 12 laminar airflow – ultra sterile operating rooms and a team of experienced doctors. Since your favourite music matches the dreams you are having, your operation can go without fear. Surgical infections are vanished by these particular procedures.

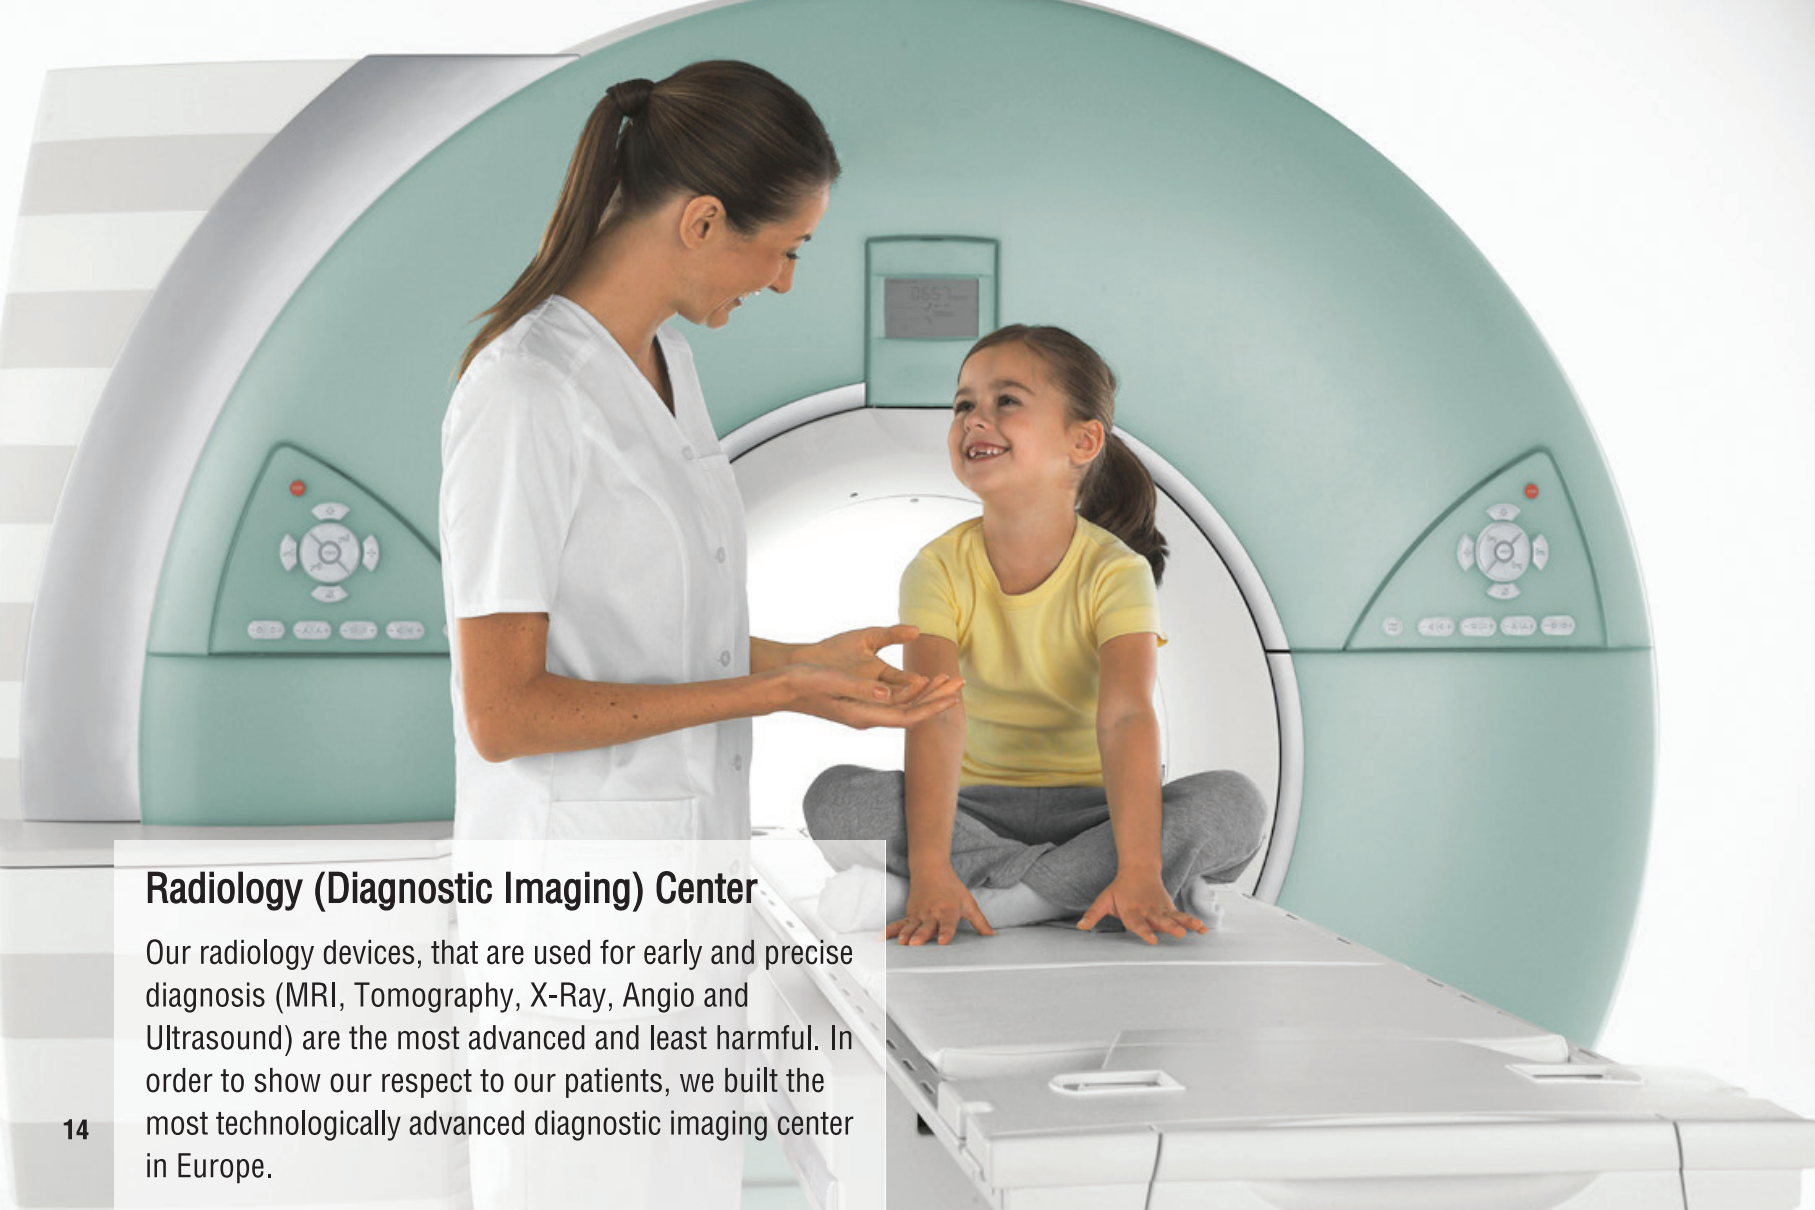

Our Intensive Care Services...

**Coronary – Cardiovascular Surgery – Neurosurgery – ICU
/ Internal Medicine – Neurology – Intensive Surgical Care –
Premature Birth – Children and Emergency Room ICU**

By using state of the art, donated equipment, our experienced medical team will not leave your life's misfortunes to chance.

Radiology (Diagnostic Imaging) Center

Our radiology devices, that are used for early and precise diagnosis (MRI, Tomography, X-Ray, Angio and Ultrasound) are the most advanced and least harmful. In order to show our respect to our patients, we built the most technologically advanced diagnostic imaging center in Europe.

We Have Created a Mass Army of Leading Scientists

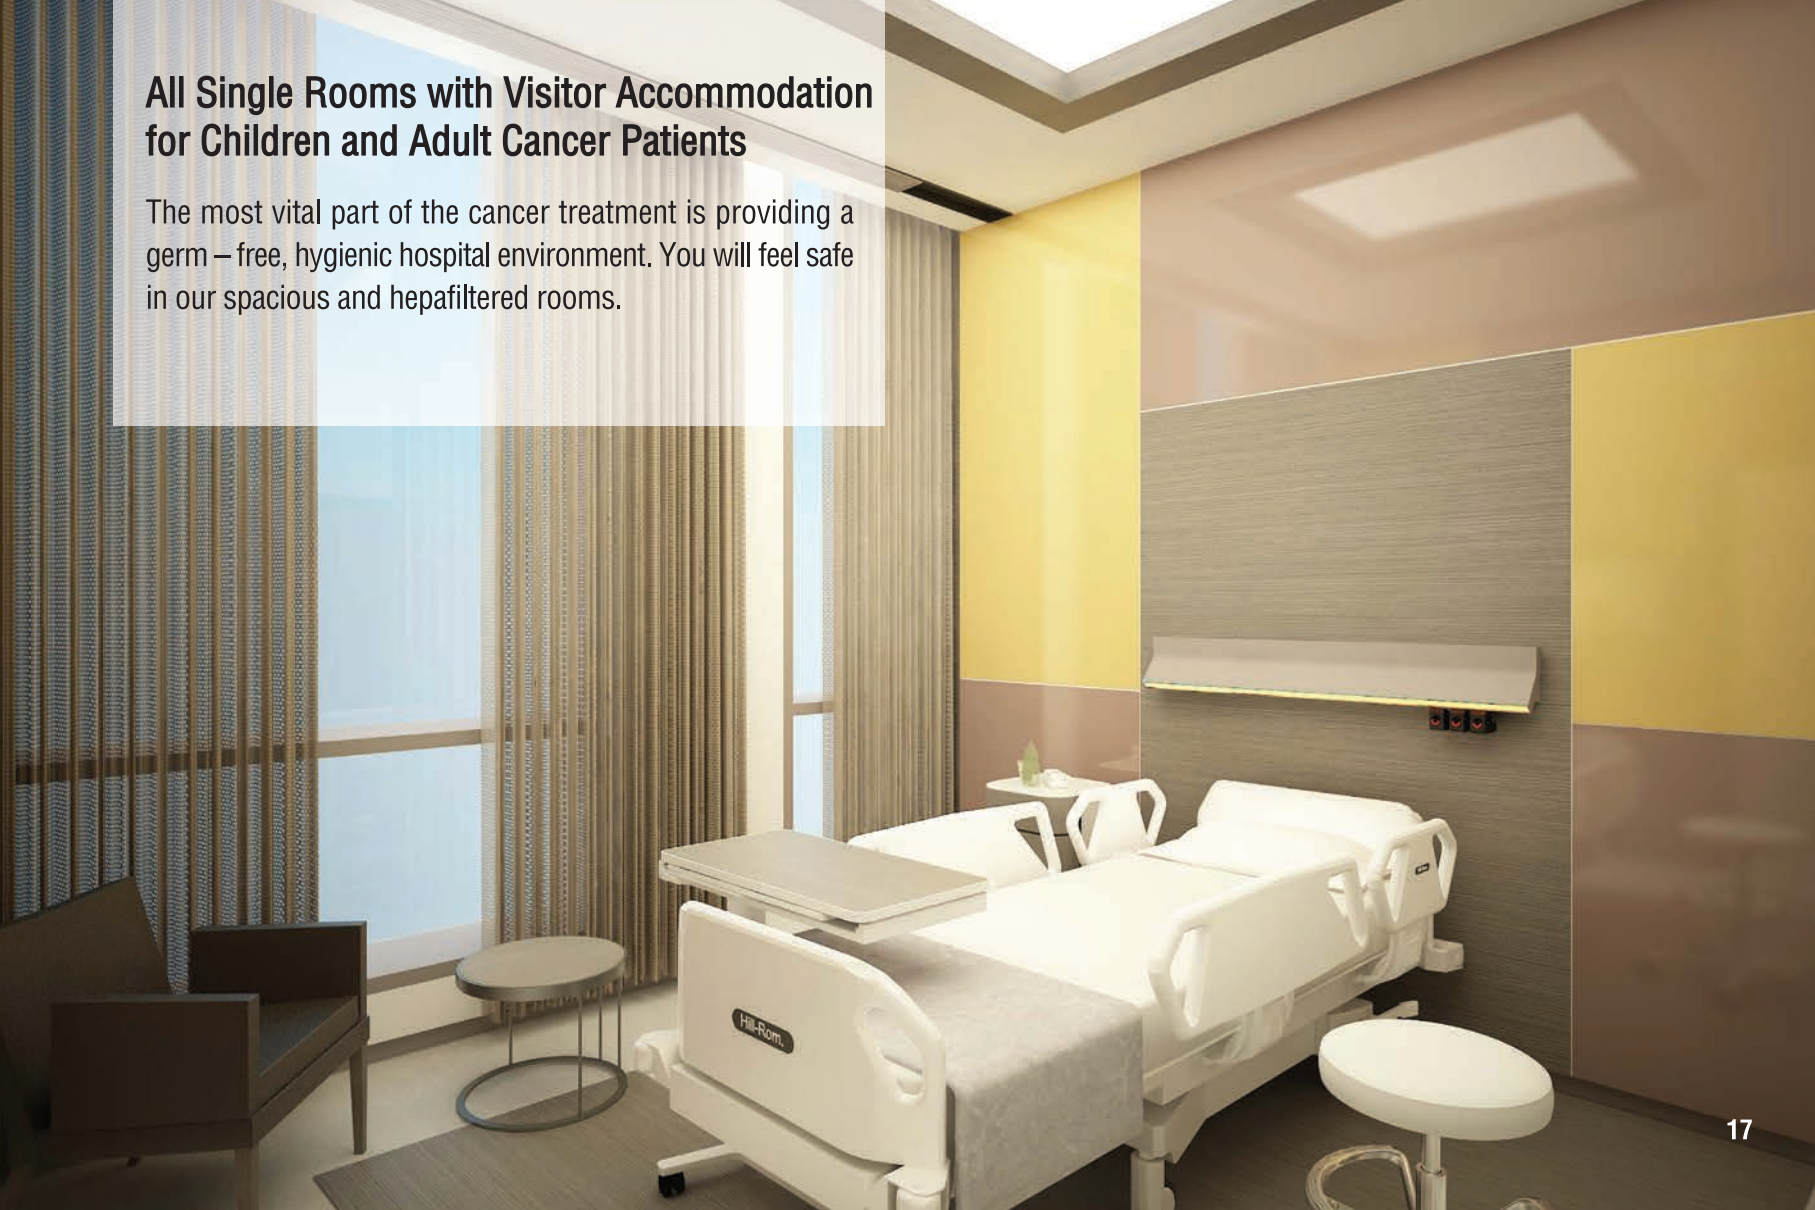

You will feel differently when you meet those who are not affected by the anxieties of life: doctors, pharmacists, nurses, biologists, health technicians, those who love their patients, those who give value, those who put themselves in your place, those who are happy doing their jobs, those who are not limited by regulations and those who see medical innovations.

Leukemia and Oncology Clinics

50% of our hospital is catered to diagnosing and treating children and adults with leukemia and oncology issues. In the last 16 years, our success rate is 92% for children with leukemia. We aim to reach a 100% success rate for both children and adult cancer patients.

All Single Rooms with Visitor Accommodation for Children and Adult Cancer Patients

The most vital part of the cancer treatment is providing a germ – free, hygienic hospital environment. You will feel safe in our spacious and hepafiltered rooms.

Leukemia and Oncology Clinics

We have private leukemia and oncology clinics where we provide early diagnosis and rapid treatment.

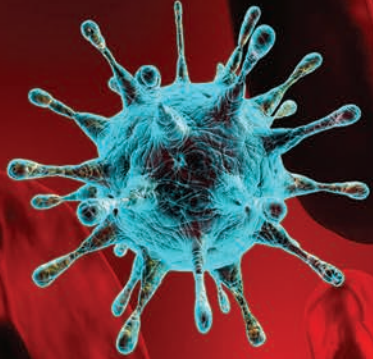

Out-Patient Chemotherapy Services

You can receive chemotherapy while you are watching TV or playing chess. In this carefully designed service there are activities and playrooms.

Bone Marrow and Organ Transplantation Services

Bone marrow transplants are planned for children and adults with leukemia, oncology, thalassemia major (Mediterranean anaemia), and immunodeficiency. Our goal is to achieve 100% success rate with our extraordinary sterile and hygienic patient rooms.

Personal Treatments and Immunotherapy

Considering our 16 years of oncology experience, we developed personal treatments and immunotherapy with 100% success rate as our goals.

We Are Always One Step Ahead with Early Diagnosis

We are always one step ahead with our high tech devices and multidisciplinary staff including medical oncology. Even the seconds are very significant to us.

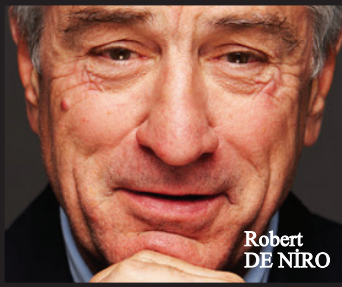

Radiotherapy and Nuclear Medicine Unit

Radiotherapy could be a “life saver” if an experienced team applies it with modern devices. One of the most important treatments we provide to our cancer patients is our radiotherapy and nuclear medicine units.

We celebrate with those who have conquered; we remember those who have passed on.

Cancer Research Laboratories

Research on preventing and protecting against cancer has been conducted throughout the last decades. We have built molecular genetics, bone marrow bank and stem cell labs in order to prevent cancer.

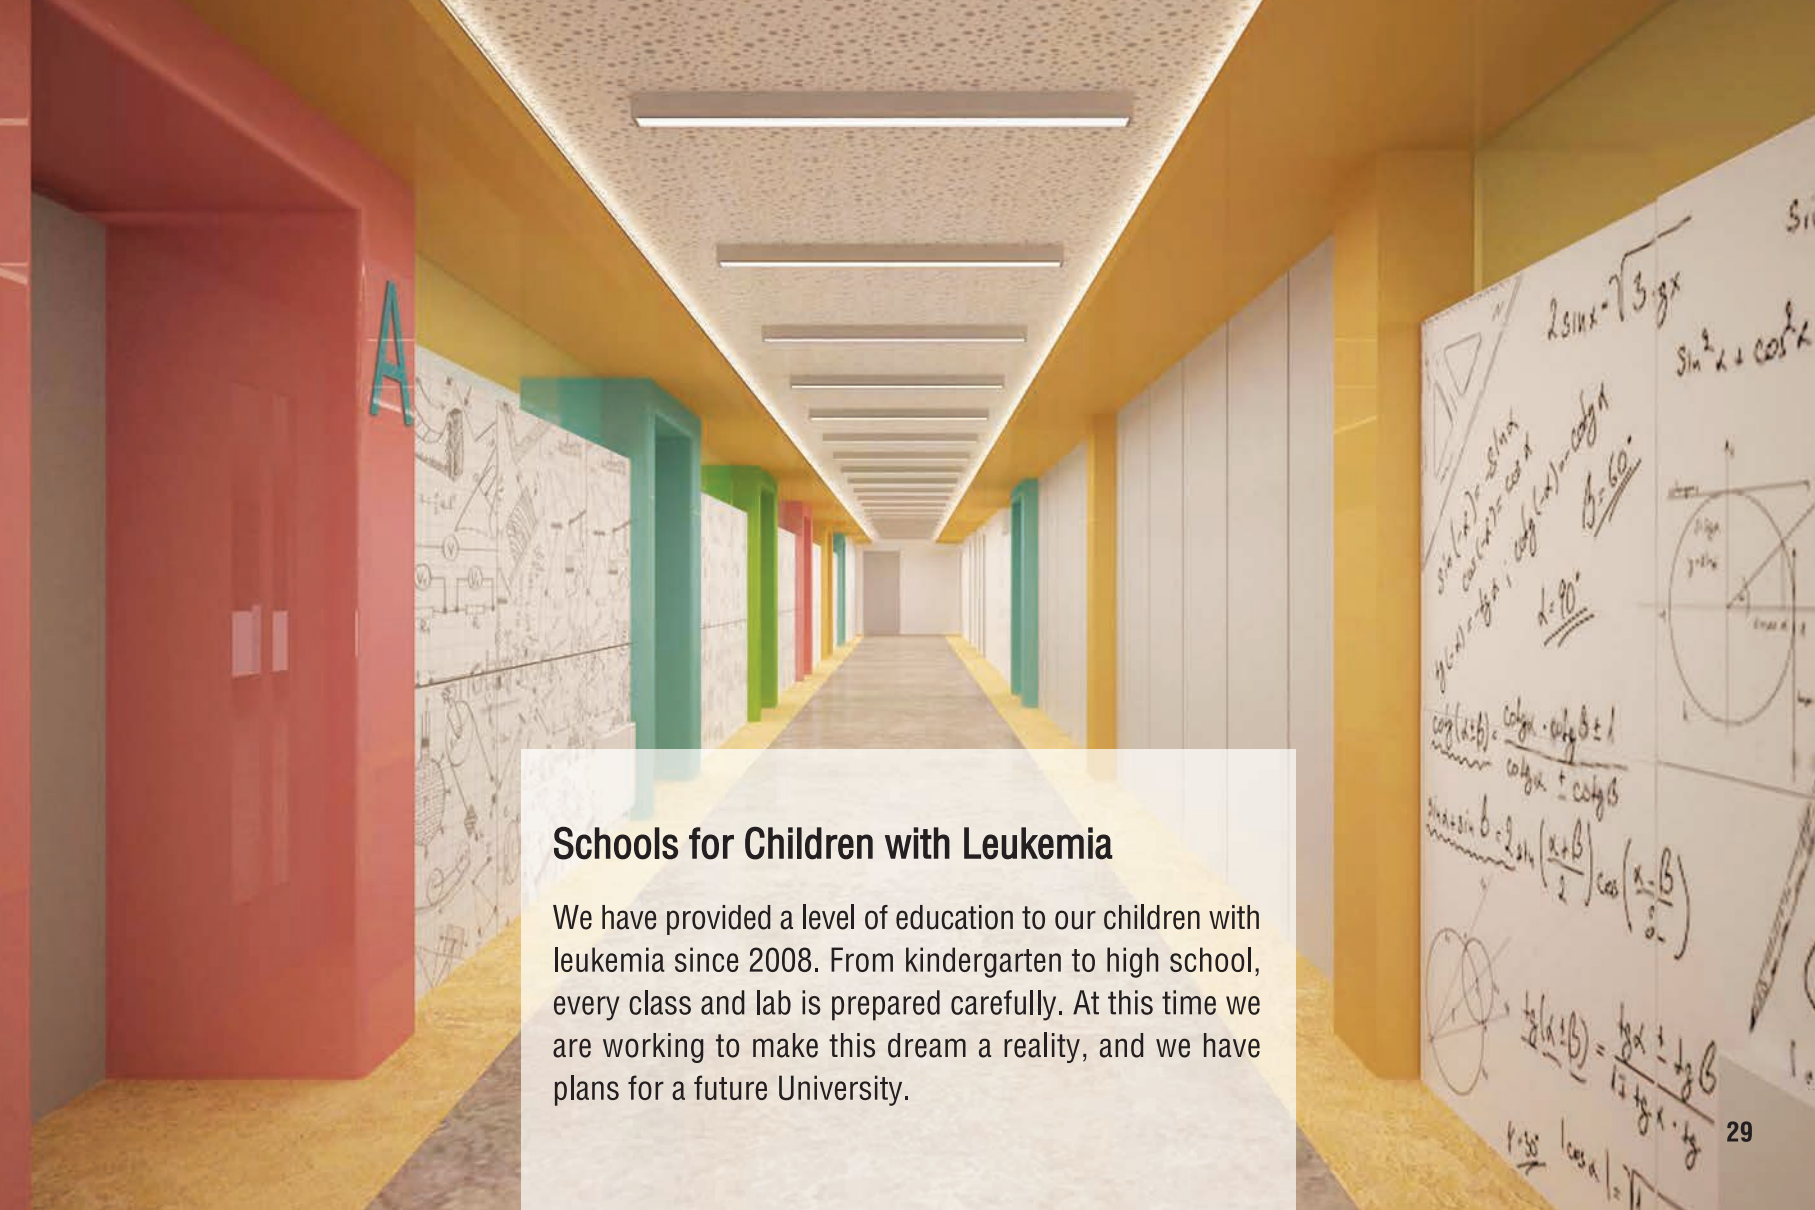

100% Success Rate and Palliative Treatment

The perfect immunotherapy includes psychological support. You will hold on to life with the help of both LOSEV and LOSANTE. Lessen the side effects during treatment, our health staff is obliged to give support services.

Activity Houses

We built activity houses for our child and adult patients where they can draw, do ceramics, play chess and do other activities. These houses are designed to lift our patient's spirits, and give them a rest from their cares.

Schools for Children with Leukemia

We have provided a level of education to our children with leukemia since 2008. From kindergarten to high school, every class and lab is prepared carefully. At this time we are working to make this dream a reality, and we have plans for a future University.

Our Hospital Hotel

Our hotel will meet the needs of our patients and their loved ones coming from outside Ankara seeking treatment by our elite medical staff in a hygienic environment.

Hotel Rooms

Our hotel services are only for our patients whose treatment allows them to leave the hospital for short period of time.

LÖSEV A Natural Life Village

There are birds chirping all around with plenty of fresh air and no radiation. The garden resonates with children's laughter, and has an environment free from noise, dust, smoke, traffic. There are lambs playing, chickens hatching, cherries and tomatoes being plucked right from the branch...

Our village, in partnership with LÖSEV Campus, will provide this kind of life by taking our patients out of the hospital environment

This is no scale model; there is nothing that can compare to the Village for Children with Leukemia

We have created an extraordinary center in a clean environment and we take pride in our offer of free service to all the families who have been affected by cancer and leukemia.

KIRAZLI KONAK

Cherry Mansion

We offer opportunities to those who are receiving treatment to visit the vacation village and to spend a night completely free.

Our Houses Full of Love

We have created modern houses where children will be able to live comfortably for the duration of their treatment and to spend a night with their family.

Our LÖSEV Village Homes

We have built the most hygienic, usable and contemporary houses for our children and their families who have been affected by leukemia and have had to sleep in hospital gardens or on street benches. All of these homes are well furnished with everything from automatic washing machines to small tea spoons. Complimentary maintenance and service are included.

Workshops

We have created a workshop that connects our children and their mothers to life by lessening their fears and anxieties. The more involved the mothers are the happier they will be.

Our Friends in Nature

Nourishing our leukemia patients with natural and healthy food is very important. That is why we strive to increase our patient's health by nourishing them with the milk and yogurt of free-roaming cows and the eggs of organically fed chickens.

As we encourage sports we impede the effects cancer has...

We desire our patients to participate in sports and encourage them to stay active by swimming and walking. This way they can get plenty of natural, fresh air during their time outside.

Will you continue donating bricks?

How wonderful is it that there is an establishment with people who are charitable and giving. Who think about our projects and help them come to life, we are grateful you have never left our children alone..

And after keeping this critical work going, once again we need your support to keep our children alive.

So once again our children ask
“Will you please continue donating bricks?”

TURKEY, LOOK AFTER WHAT YOU HAVE ACCOMPLISHED

A brighter day starts tomorrow...

With the millions of bricks that you donated, Turkey and Europe's most fully-equipped Oncology Hospital LÖSANTE become a reality.

www.birtugladasenkoyarmisin.com
www.losante.com.tr

How Can I Donate?

- A-** You can place a great brick
- B-** You can save lives by donating a medical device or by sponsoring a patient's treatment
- C-** Your donation can be remembered by having a hospital room, treatment center or clinic named after you.
- D-** You can also donate belongings and property.

A- You Can Place A Great Brick

The best investment or the most meaningful birthday or anniversary present that you can give is a great LÖSEV brick with your name written on it. Your bricks will stay on our hospital walls for years to come as a symbol of your giving life to others.

B – You Can Save Lives by Donating a Medical Device or By Sponsoring a Patient’s Full Treatment Process

If you buy a product for the needs of our hospital or school, you can write your name on it. Or, you can save a life by helping with the expenses of one of our patients.

C – Your Donation Can Be Commemorated by Having a Hospital Room, Treatment Center or Clinic Named After You

You can help to save a life and have your name written on their room. Since your name is on the plaque, the love you give will last forever.

Teşekkürlerimizle

D – You Can Also Donate Belongings and Property

You can donate transferable items such as your land or your house. Through donating your property you can find peace and satisfaction in this life.

How Can You Donate to LÖSEV?

1. All Bank Branches (toll free money order)

The LÖSEV donation account is open in all branches of banks in Turkey. Your bank will accept donations without any fees. Please ensure that your donation receipt says LÖSEV on it so that your donation does not go to the wrong account. If bank personnel say anything to the effect of “The LÖSEV Donation account cannot be found” and offers to donate the money elsewhere, please call us immediately.

2. Online Banking

You can use the internet and your own banking website to find and donate to LÖSEV. You can come to the aid of others by signing up to automatically donate a desired amount on a monthly basis.

3. LÖSEV Internet

You can donate with your CREDIT CARD by filling out our SACRIFICE or RAMADAN SACRIFICE forms on our foundation’s official website, www.losev.org.tr

4. Call LÖSEV

You can get donation information by calling our foundation’s Ankara Head Office or our other branches in Turkey. You can donate through credit card payment options.

+90 532 755 06 60 / +90 549 477 06 60

5. Donate with Your Credit Card

You can donate with your credit card in any of 3 ways:

- On our website by filling out our form
- At the LÖSEV center or at any of our branches
- From the comfort of your home by using our mobile credit card readers.

6. Monthly Donations

You can be of great help by donating monthly to fund our children’s free treatment, education and other needs. Whether you want to donate 5 TL or 100 TL, you can donate by simply filling out a form..

7. Easy International Donations

All citizens living in foreign countries can donate to our USD and EUR account at Ziraat Bank in Turkey.

8. Brick Donations

You can donate both large and small bricks to Europe’s first and Turkey’s most equipped LÖSEV Oncology Center and Children’s and Adult Hospital. Doing this will help support our leukemia children’s expense-free treatment.

9. Your Property Donations

When we work hand in hand, we can give life to thousands. Your donations will bring life to our school and hospital projects and help save children’s lives. As you grow older and need our help, please do not hesitate to call us.

10. Donations to our LÖSANTE Children’s and Adult Hospital

You can help by donating to our hospital that provides a 92% success rate to children and adults treated at LÖSANTE. This state-of-the-art hospital provides cost-free services, including intensive care to special meals and everything from medicine to pyjamas for our patients.

11. Donations to Our Village and Schools

You can help by donating to our special school and our village which provide free help and education to those who afflicted by cancer during their treatment and afterwards.

We are progressing in the way of Mustafa Kemal ATATÜRK, the protector and great leader of the Republic of Turkey. We have crossed civilizations and our goal is to lead the world in treating leukemia.

BENİ TÜRK HEKİMLERİNE
EMANET EDİNİZ

B. Atatürk

Thank You to the Charitable Turkish People

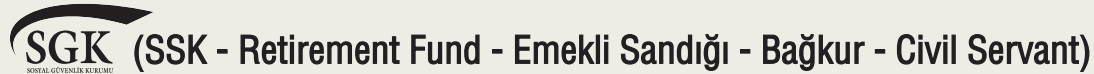

“Let us not allow Humanity or People to die”, this is an ideal we believe in.
Millions of people believe and trust in LOSEV. They have made donations and brick by brick,
LÖSANTE has been built.

Leukemia and cancer treatment is a long and arduous process that can deplete even high budgets. We have important moral standards and will not exploit our patients because of their illness. With our free treatment possibilities, we want to show that money is not everything.
