"LULËZOJNË" SCHOLARSHIP

STORY OF 'LULI I VOCËRR'

Luli i Vocërr is a story by Migjeni, about a young boy who lives in poverty. At school, other pupils play amongst themselves and ignore him. Luli stands in the corner of the schoolyard, warming himself with the rays of sunshine, and admires their brand new shoes. Only his teacher shows some affection for Luli, but nevertheless the question remains - will someone, maybe, help him out of his circumstances?

25 years after the end of the war, there are still many Luli's and Lule's in Kosovo. 'Lulëzojnë' means 'blooming' in Albanian. We are launching the 'Lulëzojnë' scholarship, to help these young people bloom into their full potential - and give back through community service.
