

Every morning, 10-year-old Anuja walks barefoot to school in the small village of Balangoda, her tattered schoolbag nearly empty. She shares a single textbook with two other classmates. Despite her hunger to learn, she is limited by a simple fact: **she has no books.**

This is not just Anuja's story — it's the reality for hundreds of children across Balangoda, Ampara, and Lunawa in Sri Lanka. Without basic schoolbooks and materials, even the brightest students are left behind.

The Problem:

In rural areas of Sri Lanka, many families **cannot afford the annual school book list or basic stationery.** While education is technically free, children are unable to fully participate due to the lack of textbooks, writing tools, and other essentials. This leads to poor academic performance, low confidence, and higher dropout rates.

Our Solution:

We believe every child deserves the right tools to learn. This project will **donate complete schoolbook sets and learning materials** to children in underserved schools in **Balangoda, Ampara, and Lunawa.**

Your support will help us:

- Provide **full book sets** based on the school curriculum
 - Supply **notebooks, pens, pencils, rulers, and school bags**
 - Deliver **educational storybooks** to spark curiosity and creativity
 - Organize **mini library corners** in selected classrooms
-

How Your Donation Helps:

Amount	Impact
\$10	Provides a stationery pack for one child (notebooks, pens, pencils)
\$25	Buys a full set of textbooks for one student
\$100	Supports 4 children with full school kits
\$250	Equips an entire classroom with books and materials
\$500+	Helps set up a mini-library in a rural school

Our Goal:

We aim to raise **\$5,000** to support at least **200 children** across 3 regions. Your generosity will help ensure these students don't fall behind simply because they can't afford a book.

Transparency / Budget Breakdown:

Item	Estimated Cost
School books (per child)	$\$15 \times 200 = \$3,000$
Stationery packs (notebooks, pens, etc.)	$\$5 \times 200 = \$1,000$
Transport & distribution	\$500
Mini classroom libraries	\$500

Why This Matters:

Books are more than paper and ink — they are **gateways to opportunity**. With your help, we can give children the confidence to learn, dream, and build a better future for themselves and their communities.

Call to Action:

- Donate today** — and put a book in a child's hand
- Share this project** with your network
- Leave a message** for the students you're supporting

Together, we can make sure no child is held back because they couldn't afford a textbook.

Thank you for your kindness and support.
