GIÚP NGƯỜI CHẠY THẬN

HỖ TRỢ VIỆN PHÍ CHO BỆNH NHÂN CHẠY THẬN KHÓ KHĂN

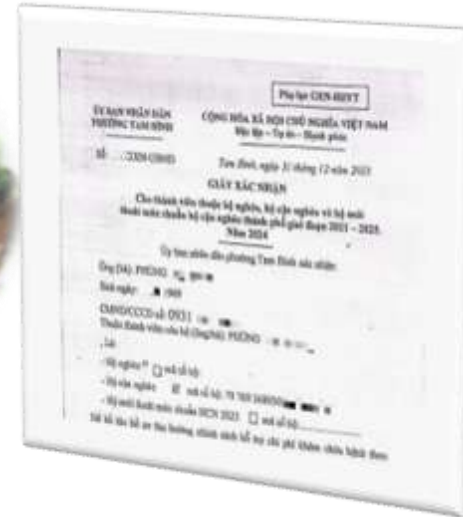

HELPING PEOPLE WITH KIDNEY DIALYSIS PROJECT

General information:

- Patients with chronic kidney failure will have to undergo regular dialysis at the hospital 2-3 times per week. The difficulties of people on dialysis are poor health, reduced ability to work, and the cost of medicine and travel. Every time they finish dialysis, they are exhausted and cannot do anything. They become a burden on their families. Therefore, they always feel inferior, and if they are the main economic pillar in the family, the pressure is even heavier. Even though they have health insurance, patients still must pay 5% - 20% of the cost, equivalent to 1 million to 5 million VND/month, not including travel and nutrition costs...
- Therefore, in mid-2024, the Lotus Charity Foundation (LCF) launched the project "Helping people with kidney dialysis". In the first phase, LCF implemented it at 4 hospitals in Ho Chi Minh City and hopes to expand to more hospitals in more areas in the next phase. Supporting patients with treatment costs will help ensure that the treatment process will be continuous. Doctor can monitor the patient's progress regularly when the patient maintains treatment at the hospital and intervene promptly when unexpected situations may occur. In addition, the patient's family's economic burden is reduced, and other essential needs will also be maintained: living expenses, children's education, etc.

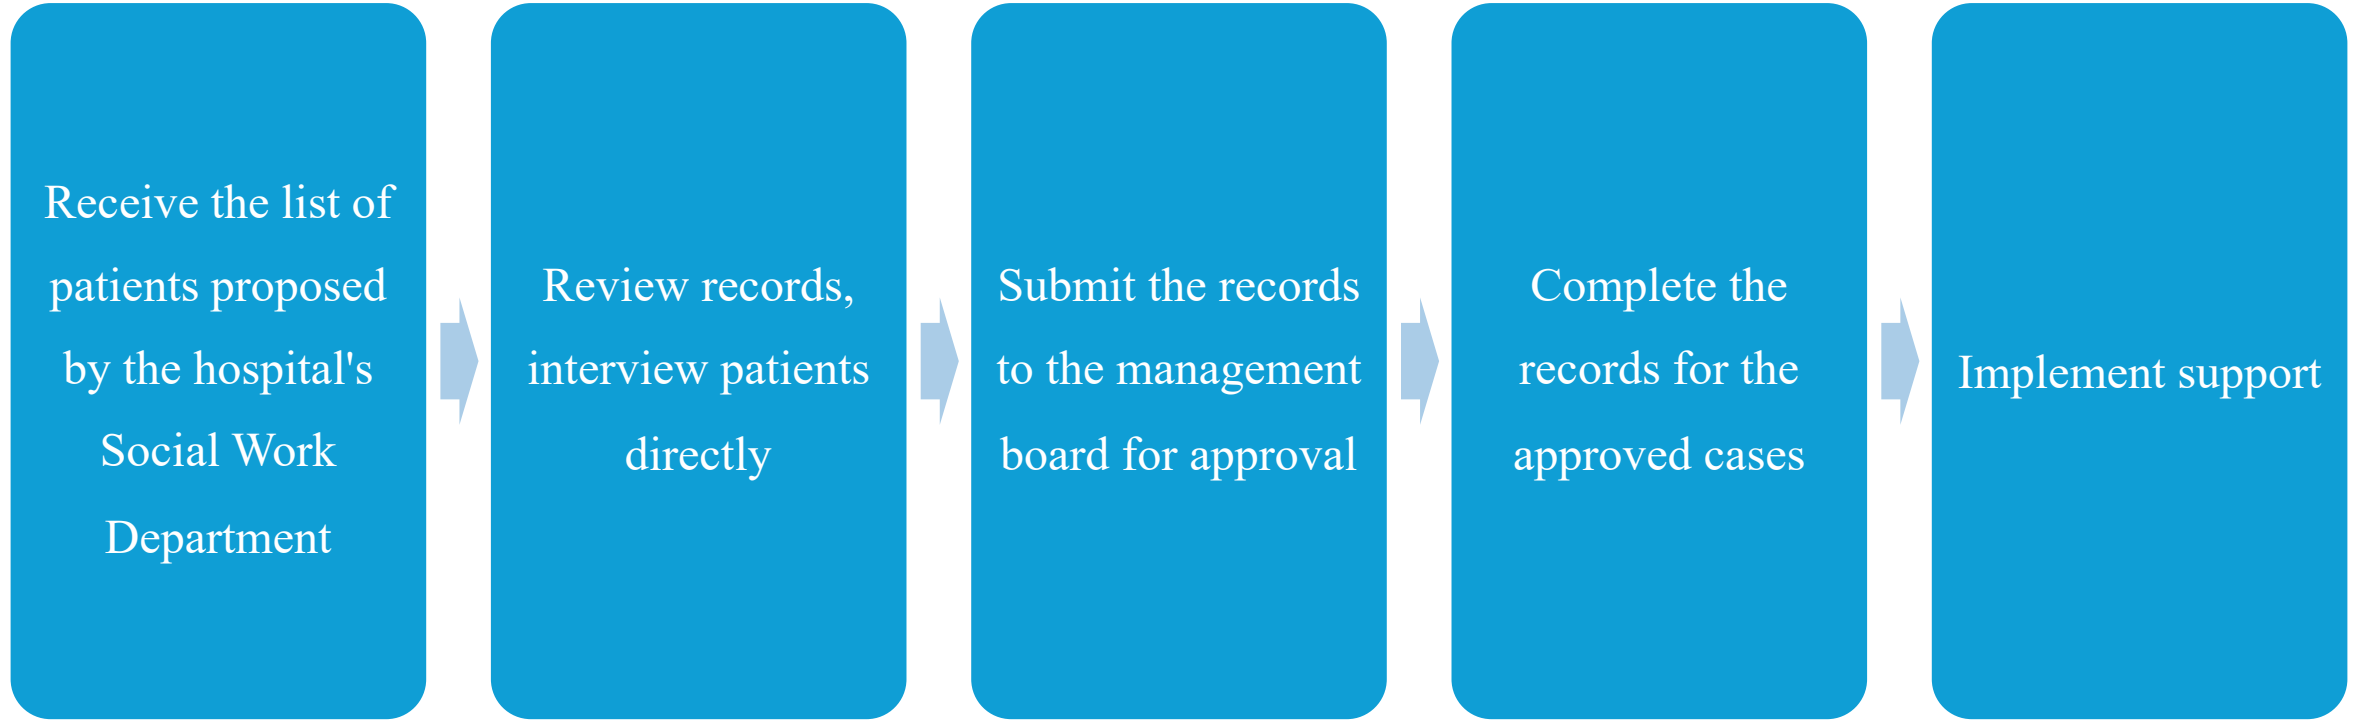

Who will be supported?

- Patients from poor or near-poor households
- Patients receiving social benefits due to illness
- Patients with a certificate of difficult circumstances from the locality

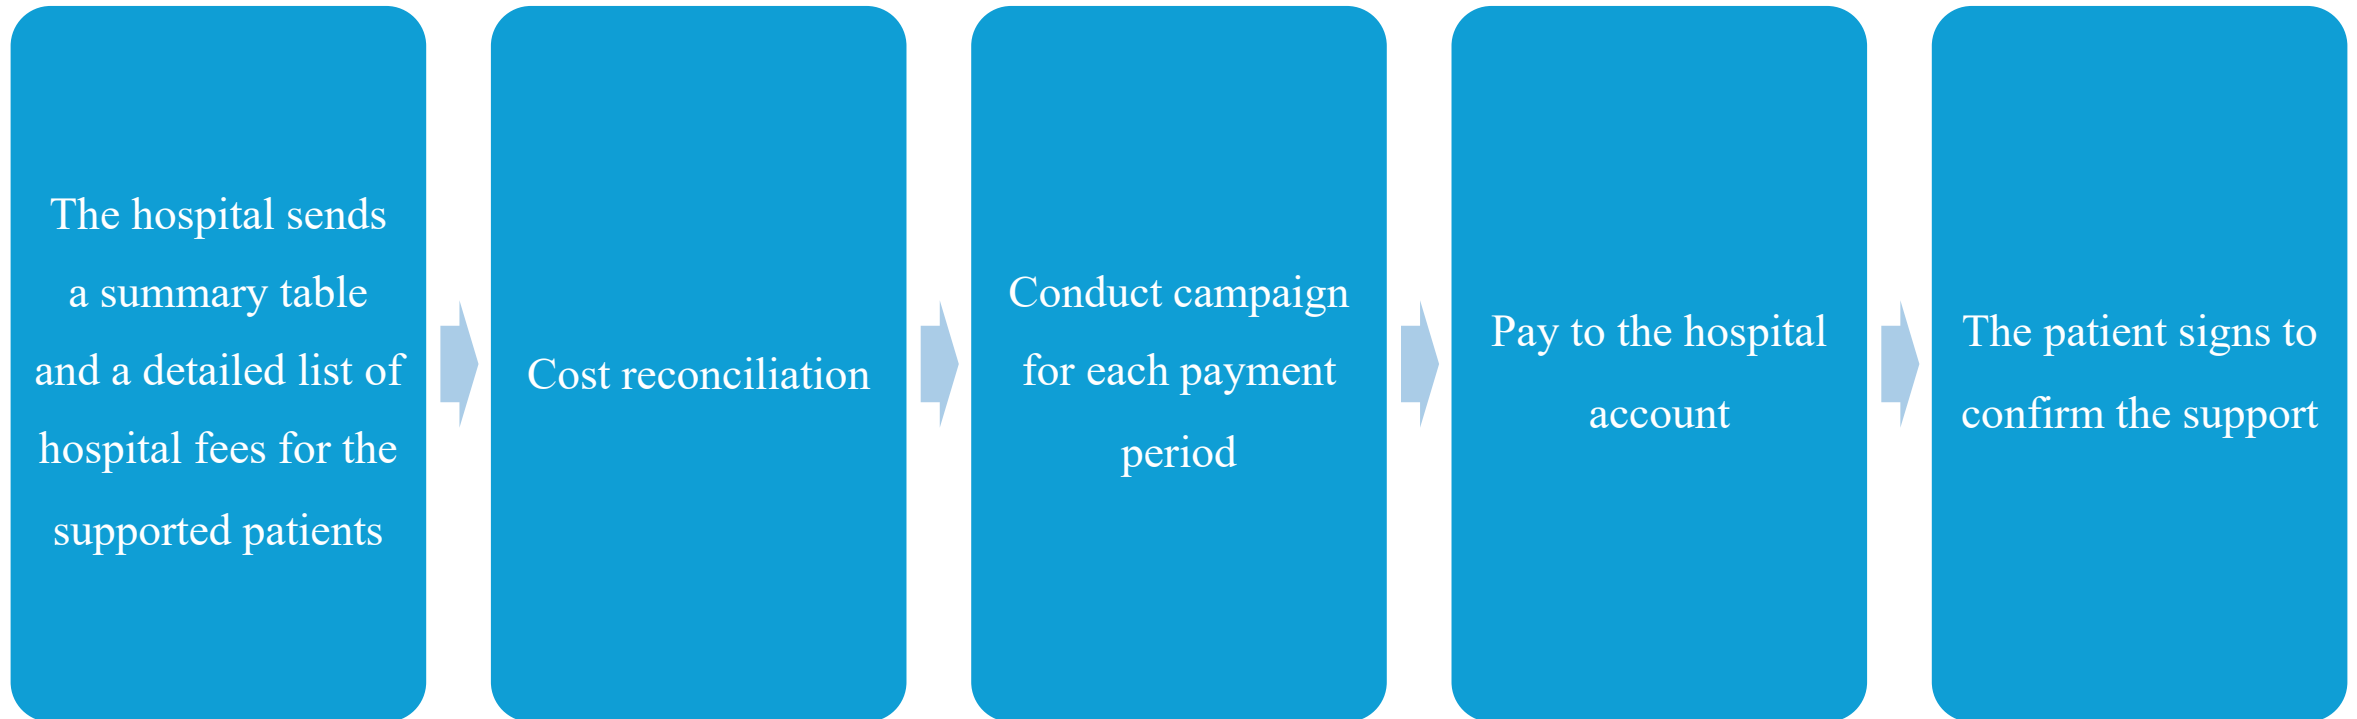

How to support?

Supporting will be implemented by LCF a sponsorship agreement with hospitals to receive patient records in need of support. After verification and approval, LCF will pay directly to the hospital based on the actual monthly costs of the patient.

Monthly payment process

Monthly budget:

- LCF is supporting 79 patients at 4 hospitals in HCM with a total cost of about 110.651.543 VND per month.
(Figures based on September 2024 support costs)

Cho Ray Hospital
